INDEPENDENT AUDITORS' REPORT

Board of Regents of the University of Nebraska Lincoln, Nebraska:

We have audited the accompanying financial statements of the business-type activities and discretely presented component unit of the University of Nebraska (the University) (a component unit of the State of Nebraska) as of and for the years ended June 30, 2010 and 2009, which collectively comprise the University's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the consolidated financial statements of the University of Nebraska Foundation (the Foundation), a discretely presented component unit of the University; the University of Nebraska Facilities Corporation, the UNMC Physicians, the UNeMed Corporation, University Dental Associates, and the Nebraska Utility Corporation, blended component units of the University (collectively identified as the Blended Component Units); and the Obligations under the Master Trust Indenture. The Blended Component Units and the Obligations under the Master Trust Indenture represent 26 percent, 76 percent, 4 percent, and 21 percent, respectively, of the assets, liabilities, net assets, and revenues. Those financial statements, whose reports have been furnished to us, along with the Foundation report, which report appears herein, were audited by other auditors, and our opinion insofar as it relates to the discretely presented component unit financial statements of the Foundation, the Blended Component Units, and the Obligations under the Master Trust Indenture, is based solely on the reports of such other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Foundation, the Blended Component Units, and the Obligations under the Master Trust Indenture, were not audited in accordance with *Government Auditing Standards*. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the University of Nebraska, as of June 30, 2010 and 2009, and the respective changes in financial position and cash flows, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2010, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 4 through 17 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

INDEPENDENT AUDITORS' REPORT

Board of Trustees University of Nebraska Foundation Lincoln, Nebraska

We have audited the accompanying consolidated statements of financial position of the University of Nebraska Foundation as of June 30, 2010 and 2009, and the related consolidated statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the University of Nebraska Foundation at June 30, 2010 and 2009, and the results of its activities and the cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

Introduction

This discussion and analysis is designed to provide an overview of the financial position and activities of the University of Nebraska (the University) for the years ended June 30, 2010 and 2009. This analysis has been prepared by management of the University of Nebraska and it is intended to be read with the financial statements and related footnotes that follow this section.

The University is a comprehensive public institution of higher education, research, and public service. It was founded in Lincoln, Nebraska on February 15, 1869. The University became a multi-campus institution in 1968 by an act of the Nebraska Legislature that provided for the addition of the University of Nebraska at Omaha to the University system (formerly the municipal University of Omaha) and, at the same time, designated the University of Nebraska-Lincoln and University of Nebraska Medical Center as separate campuses. In 1991, the former Kearney State College became the fourth campus as the University of Nebraska at Kearney.

The University's four campuses provide a diversity of offerings. The University of Nebraska-Lincoln (UNL) offers a wide range of undergraduate majors and has primary responsibility for graduate education, particularly at the doctoral level, and in the non-medical professions. UNL also includes the Institute of Agriculture and Natural Resources, which operates research extension centers across the State of Nebraska (the State), as well as offering major educational and research programs on campus. The University of Nebraska Medical Center (UNMC) features undergraduate, graduate, and professional degree programs that prepare students for a wide variety of careers in health sciences. The University of Nebraska at Omaha (UNO) is a metropolitan university located in the heart of Nebraska's largest city offering a broad range of undergraduate programs, as well as doctoral programs in criminal justice and public administration. The University of Nebraska at Kearney (UNK) is a mid-sized, residential campus with a commitment to excellence in undergraduate education. UNK offers undergraduate degrees in the arts and sciences, education, and business and technology, with a wide range of majors.

The financial statements for the University of Nebraska include six blended entities, those being the University of Nebraska Facilities Corporation (UNFC), the UNMC Physicians, UNeMed, the University of Nebraska Dental Associates, the Nebraska Utility Corporation, and the Peter Kiewit Institute Technology Development Corporation. Additional information regarding these entities is described in the footnotes to the financial statements.

In accordance with the guidance of Governmental Accounting Standards Board (GASB) Statement No. 39, *Determining Whether Certain Organizations Are Component Units, an amendment of GASB Statement 14*, the University of Nebraska Foundation's (the Foundation) financial statements are discretely presented with the University's financial statements. Management's discussion and analysis relates only to the University and does not include any overview of the financial position and activities of the Foundation. References to the Foundation within the analysis relate only to specific transactions with the University.

The fall semester (fiscal 2010) headcount enrollment was 48,607 students on the four campuses. This represents an increase of approximately 1,089 compared to the fall 2008 (fiscal 2009), a 2.3% increase, the fifth straight year of increases, and returns headcount enrollment to the highest level in a decade. The largest percent increase within the underlying demographics is graduate students (up 5%). Undergraduate students increased 1.6%, while professional students remained flat. The primary campus behind the increase was UNL who posted a gain of 2.2%. Increasing enrollment is a strategic priority of the University and all campuses have devoted greater efforts to recruit both in-state and out-of-state students through such activities as improvement of student residences and facilities. The number of students enrolled in graduate and professional programs increased by 496 to 12,256, representing 25% of the student body, reflecting the University's commitment to its increasing prominence as a major research institution.

Financial and Operating Highlights

- Growth in Net Assets. Total net assets and unrestricted net assets of the University grew by approximately 11% and 16%, respectively, and are attributable to several factors. First, the University's investment in the Nebraska Medical Center joint venture increased by \$23 million and is included in unrestricted net assets. Second, the trusteed insurance balances increased approximately \$18 million reflecting the University efforts to maintain prudent levels of reserves for the general liability and property self-insurance and the employee group health insurance programs. Third, the University's cash reserves increased by \$2 million and UNMC Physicians, a blended entity, realized an increase in net assets of \$5 million. Fourth, Innovation Campus, formerly State Fair Park, valued at \$42 million was deeded to the University from the State of Nebraska. Lastly, the University reduced expenditures during the year to conserve State aided resources for the following biennium. Maintenance of a prudent level of reserves is a key to the long-term success of the University.
- New Capital Construction. Investment in capital construction followed University priorities. The following projects align behind the higher education, research, and public service missions and thereby make the University more competitive in continuing to attract high caliber students and faculty. Work began on Scott Court, a new suite style student residence hall at UNO in May 2010. Construction was completed on Jorgensen Hall and the Jackie Gaughan Multicultural Center at UNL during the year, along with the renovation of the Whittier Building. A renovation

- 5 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

of a student residence hall was completed at UNK. Construction of three Health Professions Futures structures was initiated at UNMC while renovation of the College of Dentistry building was completed. Construction and renovation work continues at all of the campuses on several deferred maintenance projects financed by the UNFC Series 2006 and Series 2009 Bonds.

Indebtedness. Financial performance in the areas financed by revenue bonds (unions, student residences, and parking) led to strong debt coverage ratios. The University will continue to take advantage of internally generated margins and cash flow to replace and renew these strategic assets to keep them attractive to the University community.

The University marketed four new revenue bond issues under the Master Trust Indenture (MTI). The Student Fees and Facilities 2009B Bonds of \$10,680 were used to renovate the Abel-Sandoz dining center at the UNL campus. The UNL Parking 2009A and B Bonds of \$11,560 financed the construction of a new parking garage. The UNO Housing 2010A Bonds financed the purchase of University Village (formerly privately owned) located on campus. The UNO Housing 2010B Bonds financed the construction of Scott Court.

The UNFC issued two financings during fiscal 2010. The Deferred Maintenance Series 2009 Bonds of \$52,055 provide planned continuation financing for deferred maintenance projects. The UNMC OPPD Series 2010 Bonds of \$9,230 were used to prepare a certain property owned by UNMC for exchange with a property owned by the Omaha Public Power District (OPPD).

- State appropriations. State non-capital appropriations decreased by 1% in 2010 compared to 2009. The 2010 decrease followed a 5.6% increase in 2009 over 2008. The Board of Regents approved a modest tuition increase of 4%. This increase permitted the Board of Regents to provide an average salary and wage increase of 1.5% per year for faculty, administrators, and staff. The University will continue to work with the State with the hope of increasing investment, which will be deployed by management strategically while at the same time using such funding to keep college affordable. The 4% tuition increase compares to a 6% increase for 2009 and 2008.
- **Private grants and contracts.** Support from private sources increased to \$104 million in 2010, a level comparable to \$106 million in 2008, after declining to \$79 million in 2009. The decline in 2009 was attributed to general economic conditions. Revenues from the private sector are relied upon to fund University activities and greatly enhance academic pursuits and efforts devoted to research.
- Capital grants and gifts. Capital grants and gifts continue to be an important source of funding for facilities at the University. Capital grants and gifts totaled \$89 million in 2010 compared to \$51 million in 2009, and \$71 million in 2008. Even though capital gifts declined in 2009 compared to 2008, the University realized \$18 million more in 2010 compared to 2008. The largest of the gifts in 2010 included \$21 million from the Foundation for the UNO Mammel Hall project, \$10 million of donations relating to the UNMC Research Center for Excellence Towers, \$4 million for the UNMC Sorrel Center, and Innovation Campus deeded to the University.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

Using the Financial Statements

The financial statements of the University include the Statement of Net Assets, the Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows. These statements are prepared in accordance with GASB Statement No. 35, *Basic Financial Statements-and Management's Discussion and Analysis-for Public Colleges and Universities*. The statements and related footnotes are presented on a combined basis for the University as a whole.

Statement of Net Assets. The Statement of Net Assets includes all of the assets and liabilities of the University and its component units on the accrual basis of accounting. The difference between total assets and total liabilities represents the net assets of the University, and is one indicator of its overall current financial condition. Over time, increases or decreases in the University's net assets are indicative of whether its financial health is improving or deteriorating.

Assets classified as non-current are those that are expected to mature beyond a one year period or represent special accounts such as those established to comply with revenue bond covenants.

Capital assets are presented net of accumulated depreciation.

Net assets are divided into three parts:

- Invested in Capital Assets Net of Related Debt. The University's total investment in capital assets less accumulated depreciation and outstanding bond obligations incurred to acquire, construct, or improve those assets.
- Restricted net assets:
 - Expendable: A fund externally restricted by creditors, grantors, or contributors and includes grant and research funds, student loan programs, funds for plant construction, and debt service on bond obligations.
 - Non-expendable: permanent endowments.
- Unrestricted Net Assets. Comprised of the University's investment in the joint venture of the Nebraska Medical Center (NMC) of \$253 million, quasi-endowments of \$35 million, and net assets of the healthcare blended entities of \$57 million, and net assets of the self insurance programs of \$106 million with the balance representing designated departmental balances, encumbrances, and working capital funds.

Statement of Revenues, Expenses, and Changes in Net Assets. The Statement of Revenues, Expenses, and Changes in Net Assets disclose the revenues and expenses of the University during the year. Revenues and expenses are classified as either operating or non-operating. Revenues realized from operating activities are offset by operating expenses, including depreciation, resulting in an operating income or loss. Most significantly, GASB requires that certain funding sources that are significant to the University, including State appropriations, gifts, certain Federal student aid programs, and investment income, be classified as non-operating revenues. In large public land-grant institutions, this, by definition, will invariably create operating losses on the statement of revenues and expenses and negative cash flows from operations in the statement of cash flows.

- 7 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

Scholarships and fellowships granted to students are shown as a reduction of tuition and other revenues, while stipends and other cash payments made directly to students are reported as scholarship and fellowship expenses.

Statement of Cash Flows. The Statement of Cash Flows provides information about the cash receipts and cash payments made by the University during the year. When used with related disclosures and information in the other financial statements, this statement should help assess the University's ability to generate future cash flows, its ability to meet its obligations when they come due, its needs for financing, the reasons for differences between operating income and associated cash receipts, and payments and the effects on the University's financial position by investing, capital, and financing transactions during the year.

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

Analysis of Financial Position. Cash and cash equivalents represent the preponderance of current assets of the University. Cash and cash equivalents increased each year in 2010, 2009, and 2008 due to slightly higher yields gained on cash balances in the State investment pool and unexpended bond proceeds on hand.

Non-current assets of the University are dominated by the investment in capital assets. At June 30, 2010, total investment in capital assets was \$2.1 billion, yielding a net investment, after accumulated depreciation, of \$1.7 billion. The net increase in capital assets was \$209 million, consisting of net additions of \$291 million less depreciation of \$82 million. Among the more noteworthy increases were Mammel Hall at UNO at a cost of \$28 million, UNL's Jorgenson Hall at a cost of \$37 million, renovations of the Whittier Building and Keim Hall at a cost of \$20 million and \$12 million, respectively, at UNL, the UNO Health, Physical Education, and Recreation (HPER) Building for \$37 million, the Jackie Gaughan Multicultural Center at UNL for \$8 million, and Innovation Campus for \$42 million. Additions to construction work in progress for the deferred maintenance projects totaled \$43 million. A capital gift funded Mammel Hall, the Jorgenson Hall and Keim Hall projects were financed by the Deferred Maintenance Bonds, the HPER and Jackie Gaughan Multicultural Center projects were funded by Master Trust Indenture (MTI) revenue bond proceeds. The additions to deferred maintenance construction work in progress were financed by the UNFC Series 2006 Bonds proceeds.

Indebtedness grew by \$118 million (net of maturities) during fiscal year 2010 compared to \$78 million in 2009. The growth in 2010 is accounted for by the UNL Abel-Sandoz dining center, UNL Parking garage, UNO Housing University Village purchase, and the UNO Housing new student residence. UNFC financings added the UNMC OPPD Exchange Project and planned continuation financing for the Deferred Maintenance projects.

The unrestricted net assets of the University grew by 16% or \$96 million during the year to \$710 million. As discussed earlier, the growth is primarily attributable to the University's equity in the NMC joint venture, positive experiences in self insurance activities, and planned departmental and college savings.

Analysis of Operations – Overview. The University generated \$1,121 million of operating revenues during 2010, an increase of \$86 million over 2009, while operating expenses were \$1,656 million, up \$69 million over the prior year. These changes decreased the operating loss by \$18 million to \$535 million. As disclosed earlier, because of the mandated financial reporting regarding classification of State appropriations and other funding sources, statements of activities for large public land-grant universities will invariably report an operating loss.

If appropriations were added to the operating loss as displayed in the statements of revenues, expenses, and changes in net assets, the University's "operating loss after appropriations" would have been \$38 million in 2010 compared to a similar "loss" of \$51 million in 2009. To management of the University, this consistent financial performance underscores the importance of continuing solid State support combined with modest tuition and increased grants and contract activity in fostering the success of the enterprise.

- 10 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED)

(Columnar Amounts in Thousands)

The Nebraska Legislature provided \$497 million in non-capital appropriations for 2010, a decrease of \$5 million over 2009, but that followed a \$27 million increase from 2008 to 2009. Continued State investment is vital in helping the University to achieve its goals of accessibility and affordability. The University, in conjunction with the Foundation, generated non-operating and capital gifts of approximately \$153 million (includes Innovation Campus for \$42 million from the State of Nebraska) that, when combined with all other non-operating revenues and expenses including investment income of \$18 million, netted an overall increase in net assets of about \$227 million.

Revenues. The following chart depicts the revenues for 2010 and 2009 and the comparative changes that occurred between those years.

| | 2010 | | | 2009 | | | 2010-2009 Change | | | | | | | | | | | | | |
|----------------------------------------------|------|-----------|------------|------------|-----------|--------|------------------|--------|---------|--------|--|--------|--|--------|--|------------------|--|---|---------|---------|
| | | Amount | % of Total | tal Amount | | Amount | | Amount | | Amount | | Amount | | Amount | | Amount % of Tota | |] | Dollars | Percent |
| Tuition and fees | \$ | 258,559 | 23% | \$ | 245,630 | | 24% | \$ | 12,929 | 5% | | | | | | | | | | |
| Federal grants and contracts - restricted | | 221,133 | 20 | | 190,661 | | 18 | | 30,472 | 16 | | | | | | | | | | |
| State grants and contracts - restricted | | 33,650 | 3 | | 31,884 | | 3 | | 1,766 | 6 | | | | | | | | | | |
| Private grants and contracts - restricted | | 103,581 | 9 | | 79,225 | | 8 | | 24,356 | 31 | | | | | | | | | | |
| Sales and services of educational activities | | 73,609 | 7 | | 71,040 | | 7 | | 2,569 | 4 | | | | | | | | | | |
| Sales and services of health care entities | | 204,221 | 18 | | 192,899 | | 19 | | 11,322 | 6 | | | | | | | | | | |
| Sales and services of auxiliary operations | | 133,391 | 12 | | 130,018 | | 12 | | 3,373 | 3 | | | | | | | | | | |
| Sales and services of auxiliary segments | | 83,173 | 7 | | 80,639 | | 8 | | 2,534 | 3 | | | | | | | | | | |
| Other operating revenues | | 9,782 | 1 | | 12,706 | | 1 | | (2,924) | (23) | | | | | | | | | | |
| Total operating revenues | \$ | 1,121,099 | 100% | \$ | 1,034,702 | | 100% | \$ | 86,397 | 8% | | | | | | | | | | |

The University's operating revenues increased in fiscal year 2010 by 8%, or \$86 million. Most of the revenue sources showed increases from the prior year. A three year comparison of revenues for the years 2010, 2009, and 2008 is presented on page 9.

- The largest increase in revenues was realized from Federal grants and contracts, which increased by 16% during 2010. The increase is attributed to additional funding from several agencies including the U.S. Department of Health and Human Services, the U.S. Department of Defense, the National Science Foundation, and ARRA stimulus funds from several agencies. This compares to an 8% increase during 2009.
- The second largest increase in revenue was realized from private grants and contracts which increased by 31% over 2009. This level of support is comparable to past experience and the \$106 million of revenue realized during 2008.
- The third largest increase in revenue was realized from tuition, which increased on a net basis by \$13 million for the 2010 year. The Board of Regents approved an increase in tuition of 4% which, when coupled with a 2.3% increase in enrollment, yielded the overall 5% increase.

- 11 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED)

(Columnar Amounts in Thousands)

- An increase of 6% was realized from sales and services of health care entities, which increased by \$11 million dollars for the 2010 year. UNMC Physicians, a blended entity, experienced an 8% increase in growth from the expansion of its clinical programs and contributed \$11 million of the increase with the remainder of the overall increase contributed by the UNMC campus clinics.
- Sales and services of auxiliary operations increased because of revenues from newly constructed student residences, high occupancies in student residences, and a 5% increase in housing rates. Increases in athletic revenues from ticket prices, increased attendance, and concession revenues contributed to the growth in revenues.
- Sales and services of educational activities increased 4%. This increase resulted from an increase in technology fees, increases in conference activities, and higher commodity prices for sale of agricultural products marketed by the Research Division of the Institute of Agriculture and Natural Resources.
- State and local grants and contracts increased by \$2 million in 2010 compared to 2009 contributing to a variety of education and training activities of the University. The increase was similar to the \$2 million increase realized in 2009 over 2008.

Expenses. The following chart shows the University's expenses for 2010 and 2009 and comparative changes that occurred between those years. A three year comparison of expenses for the years 2010, 2009, and 2008 is presented on page 9.

| | 20 | 010 | 20 | 2009 | | 9 Change | |
|------------------------------|--------------|------------|--------------|------------|-----------|----------|--|
| | Amount | % of Total | Amount | % of Total | Dollars | Percent | |
| Compensation and benefits | \$ 1,043,839 | 63% | \$ 1,023,285 | 65% | \$ 20,554 | 2% | |
| Supplies and materials | 231,900 | 14 | 243,746 | 15 | (11,846) | (5) | |
| Contractual services | 113,097 | 7 | 101,792 | 7 | 11,305 | 11 | |
| Repairs and maintenance | 76,050 | 4 | 49,898 | 3 | 26,152 | 52 | |
| Utilities | 37,157 | 2 | 35,972 | 2 | 1,185 | 3 | |
| Communications | 13,655 | 1 | 13,909 | 1 | (254) | (2) | |
| Depreciation | 81,724 | 5 | 68,525 | 4 | 13,199 | 19 | |
| Scholarships and fellowships | 58,702 | 4 | 50,442 | 3 | 8,260 | 16 | |
| Total operating expenses | \$ 1,656,124 | 100% | \$ 1,587,569 | 100% | \$ 68,555 | 4% | |

Operating expenses were \$1,656 million for the 2010 fiscal year, an increase of 4% compared to 2009. Changes in the major expense classifications follow.

Compensation and benefits increased by \$21 million in 2010 compared to 2009 and accounts for 30% of the total increase in expenses for the University. Faculty salaries and benefits increased an average of 1.5%. Additional amounts were expended for targeted areas including continued support for programs of excellence, funding for instructional workload salaries, research initiative programs, maintenance services for newly opened facilities, and intercampus development.

- 12 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED)

(Columnar Amounts in Thousands)

- Repairs and maintenance increased by 52%, reflecting continued upgrades to buildings and facilities to gain energy efficiencies, partially funded by ARRA energy efficiency grants, and to provide adequate space for patient clinics, research-related activities, and MTI obligated member student residences and food services.
- Utilities increased by \$1 million, fueled primarily by the use of newly occupied facilities including research space that has a higher utility consumption. These increases were mitigated by savings from energy conservation measures undertaken to reduce consumption, which included window replacements and other deferred maintenance projects.
- An 11% increase in contractual services is attributed to increases in sub-grantee awards, and a 48% increase in contractual payments to medical specialists by UNMC Physicians, a blended entity.
- Scholarships and fellowships grew by \$8 million, approximating tuition increases, which is an effort to maintain affordability.

Non-Operating Revenues (*Expenses*). Net non-operating revenues increased during 2010 compared to 2009 by \$121 million. This change is primarily driven by the net result of a year-over-year increase in fair value of investments of \$99 million.

Thanks to vital support from the private sector and the Foundation, the University garnered non-capital and capital gifts during the year of \$64 million and \$89 million respectively. This compares to \$65 million and \$51 million during 2009. Non-capital gifts support scholarships to students and a variety of academic and research pursuits.

Other Revenues, Expenses, Gains, or Losses. State of Nebraska capital appropriations increased in 2010 by \$2 million for a total of \$18 million. This compares to a decrease of \$10 million in 2009 and an increase of \$7 million in 2008. The capital appropriations in 2010 included a total of \$11 million for debt service on both the 2006 and 2009 Series of deferred maintenance bonds and \$7 million for fire and life safety projects.

Capital Assets

The University made significant investments in capital assets during the current year. Major construction projects and acquisitions completed were:

• Construction of Jorgensen Hall was completed at a cost of \$37 million at UNL. Financing for this project came from UNFC Deferred Maintenance Bonds. The structure will house the Physics and Astronomy departments.

- 13 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

- The renovation of Keim Hall at UNL was substantially completed at a cost of \$12 million. Keim Hall houses the Agronomy and Horticulture departments of the Institute of Agriculture and Natural Resources. The renovation was financed by the Deferred Maintenance Bonds.
- Work continued on several more deferred maintenance projects financed by the UNFC Deferred Maintenance Bonds, which included the completion of the UNMC College of Dentistry renovation at a cost of \$8 million. Revenues to repay the UNFC Deferred Maintenance Series 2006 and 2009 Bonds include capital appropriations from the Nebraska Legislature and designated matching tuition revenue approved by the Board of Regents.
- Renovation of the Whittier Building was completed at a cost of \$20 million, funded by private gifts and University funds. Whittier is home to several UNL research teams and the University Children's Center.
- The Jackie Gaughan Multicultural Center was completed for \$8 million financed by capital gifts and the UNL Student Fees and Facilities bond proceeds.
- The renovation of a student residence, Men's Hall, was completed at UNK at a cost of \$3 million. The renovation was financed by UNK Student Housing bonds issued under the MTI.
- The purchase of University Village, a privately owned student residence hall located at UNO, was financed by UNO Housing, Series 2010 Bonds, at a cost of \$16 million.
- Construction of Mammel Hall was essentially completed at a cost of \$28 million at UNO.
- The expansion and renovation of the UNO Health, Physical Education, and Recreation Building at UNO was completed at a total cost of \$37 million with \$21 million spent during 2010. Construction was financed by the UNO Student Facilities, Series 2008, under the MTI.
- Fire and life safety projects were completed on all campuses. Funding for these projects came from capital appropriations for this purpose by the Legislature through the State's Task Force for Building Renewal.

More detailed information on capital asset activity is disclosed in the Notes to the Financial Statements included in this report.

Debt Activity

Bond Financings. The University marketed four new revenue bond financings during 2010 through the Master Trust Indenture (MTI).

• On September 9, 2009, the Board of Regents issued \$10,680 of Series 2009B Bonds (\$6,140 of revenue and \$4,540 of taxable revenue bonds [Build America Bonds]) (University of Nebraska-Lincoln Student Fees and Facilities). The proceeds will be used to pay the costs of renovations,

- 14 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

remodeling, and repairs to the food preparation and dining facilities in the Abel-Sandoz Residence Hall Complex at the University of Nebraska-Lincoln, at a cost of approximately \$10 million.

- On November 4, 2009, the Board of Regents issued \$11,560 of Series 2009A Bonds (\$6,405 of revenue and \$5,155 of taxable revenue bonds [Build America Bonds]) (University of Nebraska-Lincoln Parking Project). The proceeds will be used to pay the costs of constructing approximately 1,100 spaces of parking consisting of a multi-level parking garage, together with incidental surface parking, located on the northwest corner or 19th and Vine Streets on the UNL city campus.
- On February 24, 2010, the Board of Regents issued \$17,230 of University of Nebraska at Omaha Student Housing Project Revenue Bonds, Series 2010. The proceeds were used to purchase a privately owned student residence facility, University Village, constructed in 1999. The facility consists of 12 three-story buildings each containing 12 four-bedroom apartments and a commons building for student amenities and support services. The cost of the facility was \$16,180.
- On May 26, 2010, the Board of Regents issued \$17,715 of University of Nebraska at Omaha Student Housing Project Revenue Bonds, Series 2010B. The proceeds will be used to acquire and construct an approximately 480 bed new student residence facility consisting of four three-story buildings with 30 units in each building. The project is being constructed pursuant to a ground lease/purchase agreement between the Board of Regents and the Suzanne and Walter Scott Foundation (Scott Foundation). The total cost of the project is approximately \$23.5 million. The Scott Foundation will transfer its interest in the Project to the Board of Regents on August 11, 2011.

The University of Nebraska Facilities Corporation issued two new bond financings during 2010.

- On December 8, 2009, the UNFC issued \$52,055 Deferred Maintenance Bonds, Series 2009. The bonds are planned continuation financing of deferred maintenance projects initiated and partially financed by the Series 2006 Bonds. Principal and interest payments will be paid from appropriations by the State of Nebraska and matched designated tuition revenues.
- On February 3, 2010, the UNFC issued \$9,230 of Series 2010 Bonds. The proceeds will be used to prepare a certain UNMC property for exchange with a property owned by the Omaha Public Power District. Principal and interest payments will come from lease payments received from UNMC.

The Board of Regents of the University of Nebraska Members of the Obligated Group under the MTI has bonds outstanding from the construction of student housing, parking, and student unions. The financial position of the MTI remains strong with operating income that provided a debt service ratio of 1.5 times for the year ended June 30, 2010, compared to 1.6 times for the year ended June 30, 2009, and 1.8 times for the year ended June 30, 2008. The debt service ratio required by the MTI covenants is 1.15 times.

- 15 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

The UNFC met all debt service requirements during 2010. The State Legislature has reaffirmed the appropriation of funds for their portion of the debt service pertaining to the Deferred Maintenance Project, which is combined with designated tuition revenues for debt service. The Foundation continues to receive funds from donor gifts pledged toward the funding of the University of Nebraska Medical Center Research Center project, the Sorrell Center project, and the Health Professionals Futures project. Funds from internal University Sources continue to meet expectations allowing the service of UNFC-related debt obligations in their normal course.

More detailed information on debt financing is disclosed in the Notes to Financial Statements included in this report.

Economic Outlook and Subsequent Events That Will Affect the Future

The University of Nebraska, as the State's predominant public education and research university, is an important component in driving the economic success of Nebraska. Economic development takes many forms in a major university, running the gamut from educating and retaining the best and brightest to research growth, tech transfer, and its by-product of job creation. This university-state partnership in fostering a climate of success also means, like other major land-grant universities, that State funding plays an important part in fueling the success of the University in many areas.

The Legislature will enter its January 2011 session with a projected \$986 million dollar shortfall (projected revenues less expenses) for the 2011-2013 biennium, based on a November legislative report. The shortfall includes \$857 million of new spending, which is an average of 7.6% over the two years. Approximately 60% of the \$857 is to replace ARRA stimulus funds that went to K-12, Medicaid, and corrections. Another 19% and 10% of the new spending, respectively, is for School Aid and retirement contributions (defined benefit plans covering K-12 schools, state patrol and judges). Collectively, these three factors combine to account for \$745 million of the \$857 million. Another factor in the legislative debate is that the State currently has \$321 million in its "rainy day" fund, which could also be used to meet the foregoing challenge.

While the percentage of the state budget going to the University has decreased from 21% to 14% over the last twenty years, appropriations are still a vital part in allowing the University to meet its goals. The debate in the coming session will be very important in positioning the University to enjoy continued successes.

In a focused effort to chart the future direction of resource deployment at the University of Nebraska, the President and the Board of Regents have set forth a strategic framework and priorities that will guide the University. These will help the University better serve Nebraskans through quality teaching, research, and outreach and engagement. Among those priorities are:

• Enrollment – Growing enrollment through a number of initiatives including growing the collegegoing rate.

- 16 - (Continued)

(A Component Unit of the State of Nebraska)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2010 and 2009 (UNAUDITED) (Columnar Amounts in Thousands)

- Tuition Keeping tuition increases as low as possible and thereby the cost of education more affordable.
- Graduation Increasing the graduation rate.
- Research Bolstering current endeavors and fostering new activities that will allow the University to continue to earn greater success in attracting research funding.
- Administrative costs Focusing on achieving decreases in administrative costs in both the academic and business enterprises.
- Faculty Salaries Continuing to pursue and identify resources that can be earmarked to enhance faculty salaries to facilitate even greater successes in recruitment and retention.

Again, the future of the State of Nebraska is closely tied to that of its only public university and the framework and priorities will guide University planning, helping to build and sustain a Nebraska that offers its citizens educational and economic opportunity and a high quality of life.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization – The University of Nebraska (the University) is a land-grant University founded in 1869 and governed by an elected eight-member University of Nebraska Board of Regents (the Board of Regents). University activities are conducted at four primary campuses, with two located in Omaha and one each in Lincoln and Kearney, Nebraska. While the University is a legally separate entity, it is a component unit of the State of Nebraska (the State) because it is financially accountable to the State. The major accounting principles and practices followed by the University are presented below to assist the reader in evaluating the financial statements and the accompanying notes.

These statements have been prepared in accordance with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The GASB has issued GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, as amended by GASB Statement No. 35, Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities. The University follows the "business-type" activities reporting format of GASB Statement No. 34. This reporting format requires the following elements:

- Management's Discussion and Analysis
- Basic Financial Statements:
 - Statement of Net Assets
 - Statement of Revenues, Expenses, and Changes in Net Assets
 - Statement of Cash Flows
 - Notes to Financial Statements

The University follows all GASB pronouncements as well as Financial Accounting Standards Board (FASB) Statements, and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989, and has elected not to apply the FASB Statements and Interpretations issued after November 30, 1989, to its financial statements.

Reporting Entity – Certain affiliated organizations for which the Board of Regents has financial accountability are included in the University's financial statements as component units.

The University's financial reporting entity consists of the University and the following component units. Their balances and transactions are blended into the accompanying financial statements and reported in a manner similar to the balances and transactions of the University itself.

- 26 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

- The University of Nebraska Facilities Corporation (UNFC) was organized to finance the construction, repair, and renovation of buildings and the acquisition of land and equipment and to hold them in trust for the University. UNFC is governed by a Board of Directors comprised of the Board of Regents.
- The UNMC Physicians is a not-for-profit corporation organized by the Board of Regents for the purpose of billing, collecting, and distributing medical service fees generated by clinicians employed by the University of Nebraska Medical Center (UNMC). The distribution of fees is governed by the terms of the University of Nebraska Medical Services Plan applicable to the member clinicians.
- UNeMed was organized to develop and market biomedical technologies for the University of Nebraska and pay all related patent costs. UNeMed acts under the authority of the Board of Regents.
- The University Dental Associates (UDA) is a not-for-profit corporation organized for the purpose of billing, collecting, and distributing dental service fees generated by dentists employed by the UNMC. The distribution of fees is governed by the terms of the University of Nebraska Dental Service Plan applicable to member dentists.
- Nebraska Utility Corporation (NUCorp) is a not-for-profit corporation formed under the Nebraska Interlocal Cooperation Act between the Board of Regents and Lincoln Electric System. The purpose of NUCorp is to purchase, lease, construct, and finance activities relating to furnishing energy requirements and utility and infrastructure facilities for the University of Nebraska-Lincoln (UNL). NUCorp is governed by a five-member Board, three of which are University officials. NUCorp's fiscal year end is December 31.
- The Peter Kiewit Institute Technology Development Corporation (PKITDC) is a not-for-profit corporation formed for the purpose of teaching and developing information science technology through students and faculty by conducting applied research.

Separate financial statements for UNFC, UNMC Physicians, UNeMed, UDA, and NUCorp may be obtained from the University of Nebraska Central Administration, Varner Hall, 3835 Holdrege, Lincoln, Nebraska 68583-0742.

The University of Nebraska Foundation's (the Foundation) financial statements are discretely presented within the University's financial statements. The Foundation is a non-profit corporation exempt from income tax under Section 501(c)(3) of the Internal Revenue Code whose purpose is to provide financial support for the University system. The Foundation reports under FASB standards, including FASB Statement No. 117, *Financial Reporting for Not-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition and presentation features. No modifications have been made to the Foundation's audited financial information as it is presented (see Note R).

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Basis of Presentation – The financial statements of the University have been prepared on the accrual basis. The University recognizes revenues, net of discounts and allowances, when it is earned. Expenses are recorded when a liability is incurred. The University first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. All significant revenues and expenses resulting from intra-University transactions have been eliminated.

Cash and Cash Equivalents – Cash and cash equivalents and cash and cash equivalents – restricted are stated at fair value. Cash and cash equivalents – restricted is cash received from external sources designated for specific purposes. Cash is deposited with the Nebraska State Treasurer on a pooled basis in a State fund. Income earned by the pool is allocated to the University based upon average daily balances. These funds are considered to be cash and cash equivalents, which are available for expenditures as needed. The investments of the pool include Commercial Paper, U.S. Government Securities, Federal Agency Debt Instruments, Corporate Bonds, Money Market Funds, and Bank Deposits. Additional information on the pool can be found in the State of Nebraska's Comprehensive Annual Financial Report.

Cash and cash equivalents held by trustee – restricted is cash held by bond fund trustees and held for the purposes designated by the respective bond covenants.

For purposes of the statements of cash flows, cash includes cash and cash equivalents, both unrestricted and restricted, and cash and cash equivalents held by trustee – restricted, and investments with an original maturity of three months or less when purchased.

Investments – Investments are stated at fair value. Securities that are publicly traded are valued based on quoted market prices. Investments that do not have an established market are reported at estimated fair value. Investments received from donors as gifts are recognized as revenue at fair value at the date of the gift. Income from investments is recognized as earned and includes realized and unrealized gains and losses.

Capital Assets – Land improvements, leasehold improvements, buildings, and equipment are stated at cost at the date of acquisition. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets. At UNL and for certain research buildings at UNMC, estimated useful lives for buildings are accounted for on a componentized basis. The estimated useful lives are 25 to 50 years for buildings and their components and 20 to 30 years for land improvements. Equipment is generally depreciated from 2 to 10 years depending on its useful life. Leasehold improvements are depreciated using the straight-line method over the aforementioned estimated useful lives or the term of the related lease, if shorter. Maintenance, repairs, and minor replacements are charged to expense as incurred. The University maintains various collections of inexhaustible assets to which no value can be determined. Such collections include contributed works of art, historical treasures, and literature.

Capital assets are defined by the University as assets with initial, individual costs in excess of \$500 for buildings and renovations, \$100 for land improvements, and \$5 for equipment. It is the University's policy that library books are not capitalized.

- 28 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed. The total interest expense incurred by the University during 2010 and 2009 was \$19,368 and \$21,081, respectively, which is net of \$4,118 and \$2,553 that was capitalized.

The University has artwork and other collections that it does not capitalize. These collections adhere to the University's policy to (a) maintain them for public exhibition, education, or research; (b) protect, keep unencumbered, care for, and preserve them; and (c) require proceeds from their sale to be used to acquire other collection items. U.S. generally accepted accounting principles permit collections maintained in this manner to be charged to operations at time of purchase rather than be capitalized.

Accrued Compensated Absences – University faculty and staff earn 12 to 25 days of vacation annually. Vacation is no longer earned once an employee accrues 280 hours of unused vacation. Any unused accrued vacation balance is carried over into the next year. Vacation may be used or received as a cash payment upon retirement or termination. In addition, certain classified staff receives a cash payment of one-fourth of accrued sick leave upon retirement from the University. The University has recognized a liability for sick and annual leave earned but not yet taken by its faculty and staff. Certain University faculty and staff also earn four floating holidays each year, which may be taken at any time during the year subject to a 32 hour cap.

Deferred Revenues and Credits – These consist of advance payments on athletic tickets, fall semester student residence hall contracts, tuition deposits, unearned income on direct financing leases, and cash received in advance for grants and contracts.

Classification of Revenues and Expenses – The University has classified its revenues and expenses as either operating or non-operating revenues and expenses according to the following criteria:

Operating Revenues and Expenses – Operating revenues and expenses include activities that have the characteristics of exchange transactions.

Non-Operating Revenues – Non-operating revenues include activities that have the characteristics of non-exchange transactions, such as gifts, contributions, State appropriations, investment income, and other revenue sources that are defined as non-operating revenues by GASB Statement No. 9, Reporting Cash Flows of Proprietary and Non-expendable Trust Funds and Government Entities That Use Proprietary Fund Accounting, and GASB Statement No. 34.

Non-Operating Expenses – Non-operating expenses are activities of non-operating nature and include interest expense on bond obligations and loss on disposal of capital assets.

Unrestricted Gifts – Revenue is recognized when an unconditional promise to pay is received and all eligibility requirements have been met. In the absence of such promise, revenue is recognized when the gift is received.

Scholarships and Fellowships – The University receives funds that are restricted by donors and grantors for aid to students. When these funds are granted to students or when scholarships and fellowships are provided through student tuition waiver, the University records the expense for student aid and the corresponding revenue. Accordingly, at June 30, 2010 and 2009, Federal grants and contracts includes

- 29 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Pell grant awards amounting to \$37,497 and \$23,500, respectively, and are also included in Scholarships and Fellowships expense. For employee tuition waivers, the University records a benefit expense and corresponding revenue. Ford direct student loans amounting to \$110,680 and \$99,013 at June 30, 2010 and 2009, respectively, are treated as agency funds.

Health and Other Insurance Claims – The University is partially self-insured for comprehensive general liability, auto liability, property losses, and group health and dental liability. The estimated liability is being funded annually and reflected as an expense.

Environmental – Environmental assessments are performed when environmental issues are identified on property owned by the Board of Regents. The cost of any assessments is expensed as incurred. Any cost of remediation is accrued when the University's obligation is probable and the amount can be reasonably estimated or determined.

Tax Status – The University qualifies as a non-profit organization under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for Federal or State income taxes is required. However, income from unrelated activities is subject to Federal and State income taxes. No provision is deemed necessary for any income taxes associated with unrelated activities.

Estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications – Certain 2009 amounts have been reclassified to conform to the current year presentation.

B. DEPOSITS

Custodial credit risk – In the case of deposits, custodial credit risk is the risk that in the event of a bank failure, the University's deposits may not be returned to it. The University does not have a formal custodial risk policy. Bank balances of cash and cash equivalents amounted to approximately \$2,088 (book balance of approximately \$1,667) at June 30, 2010, with approximately \$2,066 covered by Federal depository insurance. Bank balances of cash and cash equivalents amounted to approximately \$2,343 (book balance of approximately \$1,762) at June 30, 2009, with approximately \$1,714 covered by Federal depository insurance. Of the remaining bank balance at June 30, 2010 and 2009, approximately \$22 and \$102 was collateralized with securities held by the pledging financial institution, but not in the University's name, and approximately \$0 and \$526 was uninsured and uncollateralized, respectively.

- 30 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

C. INVESTMENTS

Funds held for the support of University operations, excluding trust funds, are invested according to State statute by the State Investment Officer. Regulatory oversight is provided by the Nebraska Investment Council. The University's fair value in the Nebraska Investment Council's investment pool is equal to its pool units. University trust funds are invested by the University and its designated investment managers, in conjunction with the State Investment Officer, in accordance with the prudent person rule as established by the University. The prudent person rule places no restrictions on the investment of these funds.

Investments as of June 30, 2010:

| | | | Investment Maturities (in years) | | | | | | | | | | |

| | | | | | | | | | | | | | |

⁽¹⁾ This amount includes \$29,707 of bonds which are callable in less than one year.

Interest Rate Risk – The University does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – State statutes authorize the University to invest funds in accordance with the prudent person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments. The University does not follow a more restrictive policy. Credit ratings for these investments that are rated are as follows:

- 32 -

⁽²⁾ This amount includes \$338 of bonds which are callable in less than two years, and \$89 callable in less than eight years.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The University places no limit on the amount that may be invested in any one issuer. More than 5% of the University's investments are in the following investment types at June 30:

| | Concer | itration |
|----------------------------------------|--------|----------|
| | 2010 | 2009 |
| Federal Home Loan Mortgage Corporation | - | 5% |
| Federal National Mortgage Association | 6% | 9% |
| Federal Home Loan Bank | 8% | 10% |
| U.S. Treasuries | 7% | 11% |

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The University does not have a formal custodial credit risk policy. Investments are stated at fair value and are uninsured, unregistered, and held by the trustee or an agent, but not in the name of the University. Of the University's \$5.8 million investment in repurchase agreements in 2010 and 2009, \$6.4 million and \$6.1 million respectively of underlying securities are held by the investment's counterparty, but not in the name of the University.

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The University does not have a formal policy to limit foreign currency risk. Primary exposure to foreign currency risk is presented in the following table.

| | Foreign Currency | | | | | | |
|--------------------|------------------|-------|----|-------|--|--|--|
| | | 2010 | | 2009 | | | |
| Australian Dollar | \$ | 1,316 | \$ | 1,186 | | | |

- 34 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

D. ACCOUNTS RECEIVABLE, UNBILLED CHARGES, AND LOANS TO STUDENTS

Substantially all amounts included in accounts receivable and unbilled charges represent tuition receivables, grant reimbursements, unbilled charges, patient accounts receivable, and other receivables. Balances are stated net of allowances for doubtful accounts and contractual adjustments of approximately \$10,061 and \$8,858 at June 30, 2010 and 2009, respectively. In addition, the University maintains an allowance for doubtful collections of student loans of approximately \$1,294 and \$1,293 at June 30, 2010 and 2009, respectively.

E. INVESTMENT IN JOINT VENTURE

The University and Bishop Clarkson Memorial Hospital (Clarkson) entered into a Joint Operating Agreement in 1997 forming the Nebraska Health System, a Nebraska non-profit corporation doing business as the Nebraska Medical Center (NMC). A Board of Directors comprised of six members appointed by Clarkson and six members appointed by the Board of Regents govern NMC. Upon dissolution of NMC, the University and Clarkson will share equally in the remaining net assets. Because the University has an ongoing financial interest in NMC, the University is accounting for the joint venture under the equity method, and accordingly, equity in joint venture in the accompanying statement of net assets represents its one-half undivided interest based on the separate financial statements of the venture. The University has recorded 50% equity in earnings of NMC for the years ended June 30, 2010 and 2009 totaling \$29,041 and \$8,861, respectively. In addition, to the extent that sufficient funds are available, as determined by the NMC Board of Directors, the University will receive an annual capital distribution. Distributions of \$6 million, shared equally by the venturers, were declared and paid for both 2010 and 2009.

Separate financial statements of NMC can be obtained from the Nebraska Medical Center, 42nd Street and Dewey Avenue, Omaha, Nebraska 68105.

In conjunction with the Joint Operating Agreement, the University entered into an agreement to lease the former hospital building to NMC that extends through 2037. The lease agreement lists lease rental payments through 2012 with a provision for payments after July 1, 2012, to be determined in the future. The hospital building was recorded at approximately \$132,000 and is included in the University's financial statements at \$13,961 net of depreciation. Following are the minimum lease rental payments due from NMC through June 30, 2012:

Fiscal Year Ending June 30:

| 2011 | \$ 4,099 |
|------|----------|
| 2012 | |
| | \$ 5,836 |

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

In addition, the University and NMC have entered into an Academic Affiliation Agreement for Education and Research. In connection with the agreement, NMC has agreed to financially support certain educational, research, operational, and clinical activities of the University College of Medicine that further the mission and objectives of NMC. During the fiscal years ended June 30, 2010 and 2009, the University received approximately \$24,700 and \$25,040, respectively, of support in connection with the agreement.

F. CAPITAL ASSETS

Capital asset activity for the years ended June 30, 2010 and 2009 is as follows:

| | 2010 | | | | |
|---------------------------------------------|-------------|-----------|-------------|-------------|--|
| | Beginning | | | Ending | |
| | Balance | Additions | Disposals | Balance | |
| Capital assets not being depreciated: | | | | | |

At June 30, 2010 and 2009, the trustees for these bond funds held cash and investments in the amount of approximately \$275,386 and \$320,114, respectively, which is reflected as cash and cash equivalents held by trustee – restricted and investments held by trustee – restricted on the statements of net assets.

Master Trust Indenture - The Board of Regents entered into a master trust indenture dated June 1, 1995, (as amended and supplemented from time to time, the Indenture) with a fiduciary with respect to the facilities (including student housing, student unions, student health facilities, and parking facilities) from which the Board of Regents derives revenues, fees, and earnings. The Indenture provides for the formation of an Obligated Group for the purpose of achieving lower borrowing costs through sharing accumulated excess revenues and earnings derived from such facilities. As of June 30, 2010, the members of the Obligated Group are (a) the student housing, student unions, and student health facilities on the University of Nebraska - Lincoln campuses (UNL Student Fees and Facilities), (b) the parking facilities on the University of Nebraska - Lincoln campuses (UNL Parking), (c) the Student Center and the HPER facility University of Nebraska at Omaha (UNO Student Center), (d) certain student housing and parking facilities at the University of Nebraska at Omaha (UNO Student Housing and Parking), (e) certain student housing facilities at the University of Nebraska Medical Center (UNMC Student Housing), and (f) the student housing facilities on the University of Nebraska Kearney campus (UNK Student Fees and Facilities) (collectively, the Obligated Group). The accumulated surplus revenues, fees, and other payments of such members of the Obligated Group have been jointly pledged to the payment of revenue bonds issued with respect to such facilities. Other facilities will be added to the Obligated Group and the revenues, fees, and other payments derived from such facilities will be pledged under the Indenture in the future as circumstances permit.

Pledged revenues of the Obligated Group under the master trust indenture are defined as all of the revenues of each member that remain after payment of the expenses of such member. Pledged revenues do not include any balances in any debt service fund or debt service reserve fund, but shall include any balances in other reserve, replacement, or contingency fund and any surplus fund held for or on behalf of such members of the Obligated Group under a related resolution.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

University of Nebraska - Lincoln Memorial Stadium Bonds – In 2004, the Board of Regents authorized the issuance of \$64,380 of Series 2004A and 2004B bonds (2004 Memorial Stadium Project). The bonds were issued to pay the cost of constructing, equipping, and furnishing improvements to Memorial Stadium and to refund \$12,970 of 1997 UNFC Bonds, Series 1997. The 2004A and 2004B bonds are payable from a gross revenue pledge of certain revenues and fees of the Athletic Department, with such payment being prior to the payment of expenditures with respect to Memorial Stadium operations. Those revenues and fees include all Memorial Stadium ticket income, current skybox revenues, current club seating revenues, donations with respect to a new premium seating program involving approximately 6,400 seats, and all donations pledged to the construction of the 2004 Memorial Stadium Project.

The bonds are not obligations of the State, nor do they constitute debt of the Board of Regents, but shall be solely from the aforementioned pledged revenues and fees.

University of Nebraska Facilities Corporation

The UNFC bonds are not obligations of the State and no tax shall ever be levied to raise the funds for the principal payment thereof or the interest or premium thereon. The UNFC bonds do not constitute debt of the Board of Regents of the University of Nebraska, but shall be payable solely out of monies derived from designated tuition revenues, legislative appropriations, and UNL and UNMC lease payments.

UNMC – OPPD Exchange Project ("*The Exchange Project*") - In 2010, the UNFC authorized the issuance of \$9,230 of Series 2010 Bonds, dated February 3, 2010.

The Board of Regents and OPPD entered into an exchange agreement on January 24, 2008 that provides for the Board of Regents to acquire certain OPPD property in exchange for specified Board property and improvements to be constructed on it. The Exchange Project was created to construct the improvements to the property of the Board of Regents and facilitate the property exchange with OPPD.

Principal and interest payments will come from lease payments received from UNMC. The Bonds are not redeemable prior to maturity.

Deferred Maintenance Project ("The 2009 Maintenance Project") – UNFC authorized the issuance of \$52,055 Deferred Maintenance Bonds, Series 2009 Bonds dated December 8, 2009.

The 2009 Maintenance Project represents planned continuation financing of deferred maintenance projects initiated and partially financed by the Series 2006 Bonds – LB 605 Deferred Maintenance Project (2006 Project). The 2006 Project was created to pay the construction costs for major renewal and renovation projects at each of the four University campuses.

Principal and interest payments will be paid from appropriations by the State of Nebraska and matched by specified tuition revenues. The bonds are not redeemable prior to maturity.

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

University of Nebraska Medical Center Health Professionals Futures ("The 2009 Project") – In 2009, the UNFC authorized the issuance of \$26,035 of Series 2009 Bonds dated March 25, 2009.

The 2009 Project is the construction of the College of Public Health building, an addition to the College of Nursing, and a Geriatric Center building on the UNMC campus. The bond proceeds will be used to provide interim financing for approximately \$36 million of donor pledged payments. The remainder of the project will be funded by other available University funds at a total project cost of approximately \$39 million

UNMC obtained pledges through the University of Nebraska Foundation that, when augmented by other funds UNMC has available, will be sufficient to pay principal and interest on the bonds. The pledges will be received in installments through 2017.

The bonds are not redeemable prior to maturity. The 2009 Project provides that if, at any time, the assigned pledged receipts are insufficient to pay principal and interest of the Series 2009 Bonds as they become due, the deficiency will be paid from the University Cash Fund or other funds of the Board of Regents available for such purpose.

University of Nebraska Medical Center Research Center Project ("The 2007 Project") – In 2008, the UNFC authorized the issuance of \$23,630 of Series 2007 Bonds dated December 19, 2007.

The 2007 Project is the construction of the Research Center of Excellence II. The bond proceeds will be used to provide interim financing for approximately \$22 million of donor pledge payments. The remainder of the project will be funded by other available University funds at a total project cost of approximately \$74 million.

UNMC obtained pledges through the University of Nebraska Foundation that, when augmented by other funds UNMC has available, will be sufficient to pay principal and interest on the bonds. The pledges will be received in installments through 2011.

Bonds maturing on or after February 15, 2018, are redeemable at par plus accrued interest. The 2007 Project provides that if, at any time, the assigned pledged receipts are insufficient to pay principal and interest of the Series 2007 Bonds as they become due, the deficiency will be paid from the University Cash Fund or other funds of the Board of Regents available for such purpose.

Series 2006 Bonds – The Sorrell Center Project – In 2007, the UNFC authorized the issuance of \$29,625 of Series 2006 Bonds dated November 1, 2006.

The Sorrell Center Project is the construction of a multi-level building to house the educational activities of the UNMC College of Medicine.

UNMC has obtained pledges through the University of Nebraska Foundation that, when augmented by other funds UNMC has available, will be sufficient to make lease payments equivalent to principal and interest on the bonds. Bonds maturing after April 15, 2013, are redeemable at par plus accrued interest.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Series 2006 Bonds – LB 605 Deferred Maintenance Project – UNFC authorized the issuance of \$110,970 of Series 2006 Bonds dated August 15, 2006.

The LB 605 Project was created for the purpose of paying the construction costs for major renewal and renovation projects at each of the four University campuses authorized by Nebraska Legislative Bill 605 (LB 605).

Principal and interest payments will be paid from appropriations by the State of Nebraska and matched by specified tuition revenues. Bonds maturing after July 15, 2017, are redeemable at par plus accrued interest.

Series 2004 Bonds – Library Storage Project – In 2004, the UNFC authorized the issuance of \$3,410 of Series 2004 Bonds, dated May 15, 2004.

The Library Storage and Retrieval Facility provides a climate-controlled environment for the library's print volumes and other documents. The strictly controlled temperature, humidity, and air quality will minimize the deterioration of the books and other documents.

Principal and interest payments will come from lease payments received from UNL. Bonds maturing after July 15, 2014, are redeemable at par plus accrued interest. The 2004 Project states that if, at any time, the assigned revenues are insufficient to pay principal and interest of the Series 2004 Bonds as they become due, the deficiency will be paid from the University Cash Fund or other funds of the Board of Regents available for such purpose.

Series 2003 Bonds – Alexander Building Project – In 2003, the UNFC authorized the issuance of \$2,935 of Series 2003 Bonds, dated March 6, 2003.

The 2003 Project involved the purchase and refurbishing of the Alexander Building, including a heating, ventilation, and air conditioning project on the city campus of UNL.

Principal and interest payments will come from lease payments received from UNL. Bonds are redeemable at par plus accrued interest. The 2003 Project states that if, at any time, the assigned revenues are insufficient to pay principal and interest of the Series 2003 Bonds as they become due, the deficiency will be paid from the University Cash Fund or other funds of the Board of Regents available for such purpose.

Series 2002 Bonds – Durham Research Center Project – In 2002, the UNFC authorized the issuance of \$56,695 of Series 2002 Bonds, dated February 15, 2002. The Project was created for the purpose of paying a portion of the cost of construction of the Durham Center, which is a ten level medical research and education tower, and a multi-level parking structure on the campus of UNMC at a total estimated cost of \$93,000.

- 42 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Through the University of Nebraska Foundation, the UNMC obtained pledges approximating \$85,000 for payment of the costs of these projects, of which \$80,552 in pledge receipts have been received through June 30, 2010. The pledges will be received in installments through 2011. These pledges are augmented with the revenue from the lease agreement with a third party for a portion of the parking structure.

Bonds maturing after February 15, 2012 are redeemable at par plus accrued interest. If, at any time, the assigned revenues are insufficient to pay principal and interest of the Series 2002 Bonds as they become due, the deficiency will be paid from the University Cash Fund or other funds of the Board of Regents available for such purpose.

Series 1998 Bonds – Deferred Maintenance Project ("The 1998 Project") – UNFC authorized the issuance of \$80,190 of Series 1998 Bonds, dated July 15, 1998. The 1998 Project was created for the purpose of paying the cost of certain deferred maintenance projects on each of the four campuses of the University of Nebraska authorized by Nebraska Legislative Bill 1100 (LB 1100). On September 9, 2009, the UNFC called the remaining outstanding bonds of \$12,763 of the 1998 Project. Sufficient funds were available in the bond and bond reserve funds to call the bonds at that time.

Nebraska Utility Corporation

In 2001, the NUCorp, an interlocal organization formed with a Lincoln, Nebraska-based utility, authorized the issuance of \$21,880 of Series 2001 Bonds. The proceeds from the debt are being utilized to address energy conservation and utility upgrades at UNL. Utility savings generated from these projects will provide funds for repayment of the bonds. Bonds maturing on or after January 13, 2013, are redeemable at par plus accrued interest.

Bond Financing

On April 2, 2008, the Board of Regents issued \$42,920 of Revenue Bonds, Series 2008 (University of Nebraska at Omaha Student Health and Recreation Project). The proceeds were used to renovate and construct an expansion to the existing health and recreation facility on the UNO campus. The new space will be dedicated to recreation activities and student health offices and expansion of the programs supporting these activities. The cost of HPER project will be approximately \$38 million.

On June 5, 2008, the Board of Regents issued \$30,255 of University of Nebraska-Lincoln Student Fees and Facilities Revenue Bonds, Series 2008A. The proceeds were used to renovate existing student living facilities in Abel-Sandoz Residence Halls. Constructed in 1965, much of the architectural and mechanical/electrical infrastructure in these facilities has reached the end of a normal life expectancy and replacement is required. The approximate cost of this renovation project is \$28 million.

On January 22, 2009, the Board of Regents issued \$52,370 of University of Nebraska-Lincoln Student Fees and Facilities Revenue Bonds, Series 2009A. The proceeds were used to construct new suite-style facilities designed to house 565 students on the UNL campus. The facilities consist of either two double-bedroom suites or four single bedroom suites, although nine single suites will be provided. Each suite will include a shared living area and bathroom. The cost of the project will be approximately \$41 million.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

On September 9, 2009, the Board of Regents issued \$10,680 of Series 2009B Bonds (\$6,140 of revenue and \$4,540 of taxable revenue [Build America Bonds]) (University of Nebraska-Lincoln Student Fees and Facilities). The proceeds will be used to pay the costs of renovations, remodeling, and repairs to the food preparation and dining facilities in the Abel-Sandoz Residence Hall Complex at the University of Nebraska-Lincoln, at a cost of approximately \$10 million.

On November 4, 2009, the Board of Regents issued \$11,560 of Series 2009A Bonds (\$6,405 of revenue and \$5,155 of taxable revenue [Build America Bonds]) (University of Nebraska-Lincoln Parking Project). The proceeds will be used to pay the costs of constructing approximately 1,100 spaces of parking consisting of a multi-level parking garage, together with incidental surface parking, located on the northwest corner or 19th and Vine Streets on the UNL city campus.

On February 24, 2010, the Board of Regents issued \$17,230 of University of Nebraska at Omaha Student Housing Project Revenue Bonds, Series 2010. The proceeds were used to purchase a privately owned student residence facility, University Village, constructed in 1999. The facility consists of 12 three-story buildings each containing 12 four-bedroom apartments and a commons building for student amenities and support services. The cost of the facility was \$16,180.

On May 26, 2010, the Board of Regents issued \$17,715, of University of Nebraska at Omaha Student Housing Project Revenue Bonds, Series 2010B. The proceeds will used to acquire and construct an approximately 480 bed new student residence facility consisting of four three-story buildings with 30 units in each building. The project is being constructed pursuant to a ground lease/purchase agreement between the Board of Regents and the Suzanne and Walter Scott Foundation (Scott Foundation). The total cost of the Project is approximately \$23.5 million. The Scott Foundation will transfer its interest in the Project to the Board of Regents on August 11, 2011.

Bond Resolutions

The bond resolutions specify the funds that need to be established, the required transfers between funds, and the maximum maturity limits for each funds' investments. The bond resolutions also require that specified amounts be deposited with the trustee for certain funds. At June 30, 2010 and 2009, the University, UNFC, and NUCorp are in compliance with these requirements.

I. CAPITAL LEASE OBLIGATIONS

The University is presently leasing real property, buildings, and equipment with either the option to purchase or transfer of title at the expiration of the lease term. Of capital leases outstanding at June 30, 2010 and 2009, \$6,586 and \$9,359, respectively, are leases with the Foundation.

Capital lease obligation activity for the year ended June 30 is as follows:

| | Beginning Balance | Additions | Reductions | Ending Balance | Current Portion |
|------|----------------------|-----------|------------|-------------------|-----------------|
| 2010 | \$ 9,359 | \$ 5,770 | \$ 8,543 | \$ 6,586 | \$2,461 |
| 2009 | \$12,759 | \$ 417 | \$ 3,817 | \$ 9,359 | \$3,411 |

- 44 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Minimum lease payments under capital leases together with the present value of the net minimum lease payments for the year ending June 30 are:

| | | Land | Buildings and Properties | E | quipment | | Total |
|-----------------------------------|----|------|--------------------------------|----|----------|----|-------|
| 2011 | \$ | 413 | \$ 1,003 | \$ | 1,265 | \$ | 2,681 |

| | \$ | 394 | \$ 4,116 | \$ | 2,076 | \$ | 6,586 |

Capital assets held under capital lease obligations at June 30, 2010, are as follows:

| | | Accumulated | |
|-----------|----------|--------------|--------------|
| | Cost | Depreciation | Net |
| Land | \$ 5,385 | \$ - | \$ 5,385 |
| Buildings | 9,467 | 1,706 | 7,761 |
| Equipment | 7,142 | 4,854 | 2,288 |
| | \$21,994 | \$ 6,560 | \$ 15,434 |

J. HEALTH AND OTHER INSURANCE CLAIMS

Activity in the health and other insurance claims programs is as follows:

| | Clinicians Self- Insurance | General Liability | Group Health and Dental | Total | |
|------------------------------------|----------------------------------|----------------------|-------------------------------|----------------------|--|
| Claim reserve, July 1, 2008 | \$ 3,085 | \$ 2,044 | \$ 5,000 | \$ 10,129 | |
| Incurred claims Payments on claims | 1,229 (826) | 1,101 (1,348) | 104,416 (104,114) | 106,746 (106,288) | |
| Claim reserve, June 30, 2009 | 3,488 | 1,797 | 5,302 | 10,587 | |
| Incurred claims Payments on claims | 1,993 (598) | 682 (974) | 109,215 (109,387) | 111,890 (110,959) | |
| Claim reserve, June 30, 2010 | \$ 4,883 | \$ 1,505 | \$ 5,130 | \$ 11,518 | |

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

The Board of Regents provides for protection against comprehensive general liability and property losses through a partially self-insured general liability program. The self-insured program also covers the retained deductible for directors and officers liability and miscellaneous claims not covered by insurance. The Board of Regents has purchased all-risk "blanket" policies for risks not covered by the partially self-insured general liability program. These policies provide for property coverage with a \$200 deductible/\$1,000 annual aggregate, educators legal liability coverage with a \$500 deductible/\$5,000 annual aggregate, and umbrella excess liability coverage for \$1,000 each loss/\$20,000 aggregate. A bank administers the general liability and self-insured trusts including the investments and payment of approved claims. The University estimates a range of loss for general liability and property claims using actuarial studies conducted by outside actuarial firms. The discount rate used by the actuaries for estimation of the claim reserve was 5% for general liability. This estimate is accrued in the accompanying financial statements and includes a reserve for known claims as well as incurred but unreported incidents.

The University participates in the State Excess Liability Fund that provides coverage from \$500 up to \$1,750 for each medical malpractice claim. Settled claims have not exceeded insurance coverage in any of the past three years.

The Board of Regents provides for faculty and staff group health and dental benefits through a self-insurance program. The University accrued an estimate for known as well as incurred but not reported claims based on claim history adjusted for current trends. A trust agreement with a bank provides for the collection, investment, and administration of premiums and for payment to the third-party administrators for claims paid.

At June 30, 2010 and 2009, the trustees for the health and other insurance claims programs held cash and cash equivalents and investments totaling approximately \$116,892 and \$99,371, respectively, whose use is limited to the payment of claims under the programs. These amounts are included in cash and cash equivalents and investments on the statements of net assets.

K. RETIREMENT PLANS

The University sponsors a defined contribution retirement plan that the Board of Regents established and has the authority to amend. The plan covers all academic faculty, administrative, and classified staff and provides investment options administered by Teachers Insurance and Annuity Association/College Retirement Equity Fund and Fidelity Investments. Under the plan, faculty and staff are required to contribute 3.5% or 5.5% if they participate in either Tier 1 or Tier 2 of the plan, respectively. The University matches faculty and staff participation by contributing 6.5% and 8.0% for Tier 1 and Tier 2, respectively. The University's policy is to fund costs accrued on an annual basis.

The University's total payroll for fiscal years 2010 and 2009 was approximately \$812,017 and \$780,725, respectively, of which approximately \$623,789 and \$596,357 was covered by the plan. The University's contribution during 2010 and 2009 was approximately \$48,696, or 7.81%, and \$46,522, or 7.80%, of covered payroll, respectively, and the faculty and staff's contribution was approximately \$32,741, or 5.25%, and \$31,266, or 5.24%, of covered payroll, respectively.

- 46 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Faculty and staff (at least 0.5 FTE) who attain age 26 and have completed 24 months of continuous service are eligible to participate in the retirement plan. Faculty and staff (at least 0.5 FTE) attaining age 30 following 24 months of continuous service are required to participate. The plan benefits are fully vested at the date of contribution.

UNMC Physicians has two defined contribution money purchase pension plans established under Section 401(a) of the Internal Revenue Code that are administered by a bank. Together, these plans cover substantially all employees who meet age and length of service requirements of the plans. The plans are funded through UNMC Physicians contributions based upon a fixed percentage of the employees' salary. Total pension expense was \$10,444 and \$10,260 for the years ended June 30, 2010 and 2009, respectively.

The GASB issued Statement No. 47, *Accounting for Termination Benefits*. Statement No. 47 requires a disclosure of the termination benefit liability incurred during the year for retirement plans. The University offered a tenure buyout option to faculty under a 1997 plan and a 2003 plan both of which are now closed. Both plans offered a buyout to faculty in exchange for tenured rights and included a provision for the University to pay health insurance premiums for the faculty member for a specified term. Currently, the administration may agree to a tenure buyout arrangement with a selected faculty member, but the buyout option is not generally open to the faculty. The expense incurred during 2010 and 2009 for the health insurance liability under new tenure buyout arrangements was \$92 and \$479, respectively. The expense incurred for 2010 and 2009 health insurance premium increases under all tenure buyout arrangements was \$24 and \$227, respectively. The total termination benefit obligation at June 30, 2010 and 2009 was \$911 and \$1,453, respectively.

L. COMMITMENTS AND CONTINGENCIES

The University has contracted for the construction of facilities that are estimated to cost approximately \$543,365. As of June 30, 2010, the approximate remaining costs to complete these facilities were \$159,233, which will be financed as follows:

| Bond funds | \$ 80,556 |
|--------------------------------------|-----------|
| Federal funds | 14,852 |
| University funds | 14,166 |
| State capital appropriations | 3,670 |
| Private gifts, grants, and contracts | 45,989 |
| | \$159,233 |

During the normal course of business, the University receives funds from the U.S. Government, State and local governments, and private donors for student loans, special projects, research grants, and research contracts. Substantially all of these funds are subject to audit by various Federal and State agencies; however, it is the University's opinion that resulting adjustments, if any, would not have a material effect upon the accompanying financial statements.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

> The University established its Agricultural Research and Development Center on approximately 9.000 acres acquired from the Nebraska Ordinance Plant (NOP) from 1962 to 1971. The Federal government produced munitions at NOP during World War II and the Korean Conflict, exposing the area to contaminants. The University legally disposed of certain materials at the site in the 1970s. In 1990, the NOP became a Federal Superfund site. An administrative order has been entered into between the Board of Regents and the Environmental Protection Agency (EPA) requiring a remedial investigation/feasibility study to determine the extent of contamination and removal actions necessary. A contractual arrangement was entered into between the Board of Regents and an engineering and consulting firm to perform the remedial investigation/feasibility study. This study was completed and the consulting firm made recommendations to the University for the removal and disposal of the contaminants at the site. The Board of Regents and the EPA subsequently agreed to an action for the remediation and restoration of the area. The recommended action plan has been completed pending acceptance of the final remedial investigation feasibility study report filed with the Environmental Protection Agency. A January 2010 report indicated that it did not appear the finalization of the report would impact the need for, or scope of, remedial actions. However, subsequent actions have produced some additional inquiries and fieldwork.

> The University has other claims and litigation pending, none of which is expected to result in any material loss to the University.

M. RELATED-PARTY TRANSACTIONS

The University routinely has transactions with the Nebraska Medical Center (NMC). The members of the faculty at the University are also members of the medical staff of NMC, and in many other areas, the operations of the University and NMC are integrated and overlap. The University provides certain operational and support services, as well as certain direct financial support to NMC. For the fiscal years ended June 30, 2010 and 2009, NMC purchased approximately \$53,006 and \$47,171 of goods and services from the University.

In 2006, the University established a receivable to recognize a \$10,000 commitment by NMC toward the construction of the Sorrell Center project. The balances due at June 30, 2010 and 2009 are \$3,000 and \$6,000. Of each of these amounts, \$3,000 is included in the accompanying financial statements in other current assets. The remaining balances in each year are included in other non-current assets.

O. AUXILIARY SEGMENT

The University issues revenue bonds to finance certain of its auxiliary activities under its Master Trust Indenture. Investors in these bonds rely on the revenue generated by the individual activities and other sources specified for repayment. Descriptive segment information for the Master Trust Indenture Obligated Group – includes the following:

UNL Student Fees and Facilities Bonds, Series 2002, Series 2003A, Series 2003B, Series 2008A, Series 2009A, and Series 2009B – These bonds are used to provide student housing and related facilities as allowed by the bond covenants for the UNL campus. Operating revenues consist primarily of room and board charges.

University of Nebraska Revenue Bonds, Series 2003, Series 2005, and Series 2009A and B – These bonds are used to provide parking-related facilities as allowed by the bond covenants for the UNL campus. Operating revenues consist of parking fee revenues.

UNO Student Activities Project Bonds, Series 2003 and Series 2008 – These bonds are used to provide a variety of services for the benefit of the University and its students in the Student Center and to provide health, physical education, and recreation services in the HPER building.

UNO Student Housing/Parking Project Bonds, Series 2003, Series 2007, and Series 2010A and B — The bonds are used to provide student housing, parking, and related facilities as allowed by the covenants for the University. Operating revenues consist primarily of rentals, student fees, and parking fees.

UNMC Student Housing Project Bonds, Series 2003 – These bonds are used to provide student housing and related facilities as allowed by the bond covenants for UNMC. Facility rental revenues comprise the operating revenues of this segment.

UNK Student Fees and Facilities Revenue Bonds, Series 2003, Series 2005, and Series 2006 – The bonds are used to provide student housing and related facilities as allowed by the bond covenants for the UNK campus. Operating revenues consist primarily of rentals, food service income, and student fees.

Pledges pertaining to these issues are disclosed in Note H.

P. SUBSEQUENT EVENTS

On August 17, 2010, the Board of Regents approved financing for the Education Center at the Nebraska College of Technical Agriculture (NCTA). The Board of Regents approved the issuance of not to exceed \$10,000 principal amount of Lease Rental Revenue Bonds, Series 2010 (NCTA Education Center Project) by UNFC. The bond proceeds will be used to construct a new Education Center classroom facility and renovate certain existing classroom space. Principal and interest will be paid from the appropriations by the State of Nebraska.

On November 23, 2010, NUCorp issued \$15,120 of Refunding Bonds, Series 2010, to advance refund \$17,065 of outstanding Series 2001 Revenue Bonds (University of Nebraska-Lincoln 2001 Project). The proceeds of the Series 2010 Bonds were deposited with an escrow agent to be invested in an amount sufficient to fully defease the Series 2001 Bonds through their early redemption date on January 1, 2012, except for the bonds due January 1, 2011, of \$890. The refunding will reduce total debt service payments by approximately \$1,975 and resulted in an economic gain of approximately \$1,751.

O. UNIVERSITY OF NEBRASKA FOUNDATION

The Foundation is a separate, non-profit organization incorporated in the State of Nebraska and has as its purpose to encourage private financial support of the University from individuals, corporations, and other foundations. Oversight of the Foundation is the responsibility of a separate and independent Board of Trustees, not otherwise affiliated with the University. In carrying out its responsibilities, the Board of Trustees of the Foundation employs management, forms policy, and maintains fiscal accountability over funds administered by the Foundation.

Although the University does not control the timing or amount of receipts from the Foundation, the resources that the Foundation holds and invests, or the income thereon, are restricted to the activities of the University by the donors. Because these restricted resources held by the Foundation are primarily used by, or for the benefit of, the University, the Foundation is considered a component unit of the University and is therefore discretely presented with the University's financial statements. Based on the Foundation's audited financial statements as of June 30, 2010 and 2009, the Foundation's net assets (including unrealized gains) totaled \$1,283,082, and \$1,116,454 as of June 30, 2010 and 2009, respectively.

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

During the years ended June 30, 2010 and 2009, the Foundation contributed \$60 million and \$58 million, respectively, to the University for academic support, student assistance, faculty assistance, research, museums, and libraries. In addition, the Foundation provided capital gifts of \$46 million and \$43 million during 2010 and 2009, respectively, to the University. These contributions provided support for several projects, including the construction of the Research Center of Excellence Project (Durham Research Center) and the Memorial Stadium Project.

Complete financial statements for the Foundation can be obtained from the University of Nebraska Foundation, 1010 Lincoln Mall, Suite 300, Lincoln, Nebraska 68508-2886.

R. COMPONENT UNIT DISCLOSURES

The following are the notes taken directly from the audited financial statements of the Foundation:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by the University of Nebraska Foundation (the Foundation) are described below to enhance the usefulness of the financial statements to the reader.

Nature of the Entity and Principles of Consolidation – The Foundation is a nonprofit corporation exempt from income tax under Section 501(c)(3) of the Internal Revenue Code whose purpose is to provide financial support of the University of Nebraska System. Its wholly-owned Limited Liability Company, University of Nebraska Technology Park, LLC (Tech Park) provides incubator facilities for emerging businesses.

Basis of Accounting – The financial statements of the Foundation have been prepared on the accrual basis and include all funds controlled by and in the custody of the Foundation. Funds in control of the Foundation include Tech Park.

Financial Statement Presentation – Financial statement presentation follows the requirements of the Financial Accounting Standards Board Accounting Standards Codification (FASB ASC). The Foundation utilizes FASB ASC 958-205 "Financial Statements of Not-for-Profit Organizations." FASB ASC 958-205 sets standards for external financial reporting by not-for-profit organizations and requires that resources be classified for accounting and reporting purposes into net asset categories according to externally (donor) imposed restrictions. A description of the three net asset categories utilized by the Foundation follows:

Unrestricted Net Assets – Unrestricted net assets include revenues and expenses associated with the general operation of the Foundation and include gifts with no donor restrictions.

Property and equipment assets associated with the general operation of the Foundation are also included in this category.

Temporarily Restricted Net Assets – Temporarily restricted net assets include gifts for which donor-imposed restrictions have not been met, trust activity, deferred gifts and pledges receivable for which the ultimate purpose of the proceeds is not permanently restricted or determined. Assets with restrictions imposed by the Foundation Board are categorized as temporarily restricted assets also.

- 54 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Permanently Restricted Net Assets – Permanently restricted net assets include gifts, trusts, and pledges receivable which require by donor restriction that the corpus be invested in perpetuity and only the income be made available for program operations in accordance with donor restrictions and gifts which have been donor stipulated to provide loans to students.

Contributions – The Foundation utilizes FASB ASC 958-605, "Accounting for Contributions Received and Made." FASB ASC 958-605 requires that unconditional promises to give (pledges) be recorded as receivables and revenues and requires the Foundation to distinguish between contributions received for each net asset category in accordance with donor imposed restrictions. Conditional promises to give are recognized only when the conditions on which they depend are substantially met and the promises become unconditional.

Pledges Receivable – Pledges receivable are recorded on the balance sheet as assets net of an approximate 3% allowance for uncollectible accounts and discounted at the present value and recorded as donations on the statement of activities. As payments are received on pledges, the amounts will be included as donations on the statement of activities for any difference not recorded as a donation and adjusted annually for the present value.

Cash and Cash Equivalents – Cash and cash equivalents include cash on hand, demand deposit accounts, time deposit accounts and money market accounts.

Investments – The Organization utilizes FASB ASC 958-320, "Accounting for Certain Investments Held by Not-for-Profit Organizations." FASB ASC 958-320 sets standards of reporting at fair value certain investments, debt and equity securities, held by not-for-profit organizations.

Therefore, investments in equity securities that have a readily determinable fair value and all investments in debt securities are stated at fair value, with gains and losses included in the statements of activities. Fair value is determined by quoted market values.

Property and Equipment – Property and equipment assets, consisting of real estate, furniture, equipment and computer software, are stated at cost or, if contributed, at fair market value at date of contribution. The Foundation's policy is to capitalize property and equipment purchases in excess of five hundred dollars

Depreciation – The Foundation follows the policy of reducing the property and equipment by depreciation applicable to the related assets. Depreciation is computed by the straight-line method over the estimated useful life of the asset ranging from three to 31 1/2 years. Assets are depreciated to a normal estimated salvage value.

Income Taxes – The Foundation is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. However, income from certain activities not directly related to the Foundation's tax-exempt purpose is subject to taxation as unrelated business income. In addition, the Corporation qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization other than a private foundation under Section 509(a)(2).

- 55 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

The Foundation has adopted the provisions of FASB ASC 740-10, "Accounting for Income Taxes", under the provisions of FSP FIN 48-3. The Foundation continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law, and new authoritative rulings.

Use of Estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Compensated Absences – Employees of the Foundation are entitled to paid vacation days, depending on the job classification and length of service. The Foundation adopted the policy of accruing vacation pay at year end.

Reclassifications – Certain reclassifications have been made to the 2009 consolidated financial statements to conform to the 2010 financial statement presentation. Such reclassifications had no effect on previously reported net assets.

2. INVESTMENTS

The Foundation has adopted FASB ASC 820-10, "Fair Value Measurements", which provides a framework for measuring fair value under generally accepted accounting principles. FASB ASC 820-10 applies to all financial instruments that are being measured and reported on a fair value basis.

As defined in FASB ASC 820-10, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Foundation uses various methods including market, income and cost approaches. Based on these approaches, the Foundation often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Foundation utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Foundation is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

- 56 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

For the fiscal year ended June 30, 2010, the application of valuation techniques applied to similar assets has been consistent. The following is a description of the valuation methodologies used for instruments measured at fair value:

Marketable Equity Securities – The fair value of marketable equity securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers. If listed prices or quotes are not available, fair value is based upon externally developed models that use unobservable inputs due to the limited market activity of the instrument

The table below presents the balances of assets measured at June 30, 2010 at fair value on a recurring basis.

| | 2010 | | | | | | | |
|-----------------------|-----------------|----|---------|----|---------|---------|---------|--|
| | <u>Total</u> | - | Level 1 | | Level 2 | Level 3 | | |
| U.S., State and Local | | | | | | | | |
| Government securities | | | | | | | | |
| and sovereign debt | \$ 53,564 | \$ | 53,564 | \$ | - | \$ | - | |
| Other bonds | 16,417 | | 16,417 | | - | | - | |
| Common stock | 336,590 | | 336,590 | | - | | - | |
| Mutual funds | 462,999 | | 462,999 | | - | | - | |
| Limited partnerships | 183,970 | | - | | - | | 183,970 | |
| Preferred stock | 13,152 | | - | | 13,152 | | - | |
| Total | \$ 1,066,692 | \$ | 869,570 | \$ | 13,152 | \$ | 183,970 | |

The changes in the financial assets for which the Foundation has used Level 3 inputs to determine fair value are as follows:

| June 30, 2009 | \$ - |
|------------------------------------------|---------------|
| Transfers and reclassifications | 162,566 |
| Net realized gains | (2,850) |
| Net unrealized gains | 1,052 |
| Interest, dividends, other income/losses | 5,221 |
| Investment management fees | (1,157) |
| Purchases | 92,671 |
| Distributions | (73,533) |
| June 30, 2010 | \$ 183,970 |

- 57 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

Management evaluates securities for other than temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial conditions and near-term prospects of the issuer, and (3) the intent and ability of the Foundation to retain its investments in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. As management has the ability to hold securities for the foreseeable future, no declines are deemed to be other than temporary.

The investments in equity securities with a readily determinable fair market quotation and debt securities are stated at fair value. All other investments purchased by the Foundation are stated at cost or fair value or appraised value at date of receipt for those investments received as donations.

3. LEASE COMMITMENTS

The Foundation entered into an amended lease agreement for rental of office space on the 2nd and 3rd floors in Lincoln, beginning September 1, 2007 and extending through August 31, 2017. The annual rental is \$577 through calendar year 2012, with a possible increase based on the consumer price index for the period from January 1, 2013 through August 31, 2017. The Foundation had also entered into a contract for rental of office space in Omaha for 15 years beginning on November 1, 2008 with increases every 60 months. The annual rental is \$388 for the first 5 years and \$419 for the next 5 years. The Foundation entered into an amended lease agreement for office space in Kearney for the period from November 1, 2008 to October 31, 2011 at a rental rate of \$4 per month. The minimum rentals for leases with guaranteed terms for the five fiscal years after June 30, 2010 are as follows:

| June 30, 2011 | \$ 1,007 |
|---------------|-------------|
| June 30, 2012 | 979 |
| June 30, 2013 | 965 |
| June 30, 2014 | 986 |
| June 30, 2015 | 996 |

4. RETIREMENT PLAN

The Foundation sponsors a retirement plan that covers employees of the Foundation and Tech Park with one year of service who work in excess of 1,000 hours annually and have attained the age of 21 years or previous participation in the TIAA-CREF or Fidelity annuity plan. Participation in the plan is mandatory upon attainment of age 30. The plan is an annuity arrangement under Code Section 403b(1) of the Internal Revenue Code using annuities under TIAA-CREF and Fidelity Investments. Under the plan, the employee chooses to contribute either 5.5% or 3.5% of their salary to the plan and the Foundation matches the amount with either 8.0% or 6.5% of salary, respectively. The Foundation and Tech Park contributions to the plans for years ending June 30, 2010 and 2009 were \$677 and \$640, respectively.

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

5. CONCENTRATION OF CREDIT RISK

The Foundation maintains cash balances and certificates of deposit at various financial institutions. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$250. At various times during the fiscal year, the Foundation's cash in bank balances exceeded the federally insured limits. The Foundation has maintained its cash balances and certificates of deposit at financial institutions in accordance with all Foundation policies and procedures.

6. CONTINGENCIES AND COMMITMENTS

The Foundation is involved in several legal actions. The Foundation believes it has defenses for all such claims, believes the claims are substantially without merit, and is vigorously defending the actions. In the opinion of management, the final dispositions of these matters will not have a material effect on the Foundation financial position.

7. RESTRICTED NET ASSETS

Net assets are restricted by donors for various purposes in support of activities at the University of Nebraska, including the campuses at Lincoln, Kearney, Omaha and the Medical Center in Omaha. The purposes include scholarships, fellowships, research, academic support and campus building and improvements. Only income from the permanently restricted net assets is available for these purposes.

The amounts of the net assets are as follows:

| Temporarily restricted - charitable trusts and annuities | \$ 30,387 |
|-------------------------------------------------------------|--------------|
| Temporarily restricted - available for specific purposes | 344,658 |
| Temporarily restricted - discretion of the Foundation Board | 52,010 |
| Permanently restricted - endowment | 765,462 |
| Permanently restricted - available for specific purposes | 71,693 |
| Permanently restricted - student loans | 10,938 |
| | \$ 1,275,148 |

8. PLEDGES RECEIVABLE

Promises to give, net of discount to present value at 6% and allowance for doubtful accounts, are due to be collected as follows:

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

| | 2010 | 2009 |
|-------------------------------------------|-------------|------------|
| Gross amount due in: | | |
| One year or less | \$ 45,081 | \$ 21,871 |
| One to five years | 98,416 | 91,141 |
| More than five years | 18,567 | 15,535 |
| | 162,064 | 128,547 |
| Less discount to present value | 19,829 | 23,356 |
| - | 142,235 | 105,191 |
| Less allowance for doubtful accounts - 3% | 4,267 | 3,156 |
| | \$ 137,968 | \$ 102,035 |

The discount will be recognized as contribution income in years 2011 through 2038.

In addition, the Foundation has been informed of intentions to give in the form of possible future bequests, currently of indeterminable value, that have not been reflected in the accompanying financial statements because they are not unconditional promises.

9. PROPERTY AND EQUIPMENT

The property and equipment of the Foundation at June 30, 2010 and 2009 are as follows:

| | 2010 | 2009 |
|-----------------------------------|----------|----------|
| Property | \$ 1,686 | \$ 1,683 |
| Leasehold improvements | 3,125 | 2,986 |
| Aircraft | 4,177 | 4,177 |
| Automobiles | 292 | 206 |
| Furniture, equipment and software | 6,596 | 6,205 |
| | 15,876 | 15,257 |
| Less accumulated depreciation | 7,998 | 6,667 |
| Net property and equipment | \$ 7,878 | \$ 8,590 |

10. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of cash, receivables, accounts payable, accrued liabilities, and deferred revenue approximate fair value due to the short-term nature of the items. The carrying amounts of pledges receivable due in more than one year are based on the discounted net present value of the expected future cash flows.

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

11. AGENCY FUNDS

The Foundation holds and invests certain endowment and other funds in trust on behalf of the University. Such funds approximated \$236 million and \$227 million at June 30, 2010 and 2009, respectively.

12. DONOR-DESIGNATED ENDOWMENTS

The Foundation's endowment consists of approximately 4,400 individual funds established for a variety of purposes. Its endowment includes both donor-restricted fund and funds designated by the Board of Directors to function as endowments. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Directors of the Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriate for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various fund, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the Foundation's investment policies.

Investment Return Objectives, Risk Parameters and Strategies – The Foundation has adopted investment and spending policies, approved by the Board of Directors, for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment funds while also maintaining the purchasing power of those endowment assets over the long-term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well diversified asset mix, which includes equity, debt securities and illiquid alternative investments that are intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of 4.5%, while growing the funds if possible. Therefore, the Foundation expects its

- 62 - (Continued)

(A Component Unit of the State of Nebraska)

NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2010 and 2009 (Thousands)

endowment assets, over time, to earn a real (inflation-adjusted) rate of return of at least 5.5% per year net of investment management fees and transaction costs, when measured over rolling five-year period. Actual return is any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to not expose the fund to unacceptable levels of risk.

Spending Policy – The Foundation has a policy of appropriating for distribution each year 4.5% of the average fair market value of the prior 20 quarters. In establishing this policy, the Foundation considered the long-term expected return on its investment assets, the nature and duration of the individual endowment funds, many of which must be maintained in perpetuity because of donor-restrictions, and the possible effects of inflation. This policy is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets as well as to provide additional real growth through new gifts and investment return.

Endowment Net Asset Composition by Type of Fund as of June 30, 2010 is as follows:

| | Temporarily Permanently | | rmanently Restricted | Total Net Endowment Assets | | |
|----------------------------------|----------------------------|---------|-------------------------|----------------------------|---------|--|
| Donor-restricted endowment funds | \$ | - | \$ 785,136 | \$ | 785,136 | |
| Board-designated endowment funds | | 139,540 | - | | 139,540 | |
| | \$ | 139,540 | \$ 785,136 | \$ | 924,676 | |

Changes in endowment net assets as of June 30, 2010 are as follows:

| | | | | | | Total Net |
|-----------------------------------------|-------------|-----------|-------------|----------|--------|-----------|
| | Te | mporarily | Permanently | | Е | ndowment |
| | Permanently | | Restricted | | Assets | |
| Endowment net assets, beginning of year | \$ | 117,366 | \$ | 651,507 | \$ | 768,873 |
| Contributions | | 7,110 | | 20,908 | | 28,018 |
| Investment income, net of expenses | | 8,327 | | (19,621) | | (11,294) |
| Net appreciation (depreciation) | | 16,250 | | 162,869 | | 179,119 |
| Amounts appropriated for expenditure | | (9,513) | | (30,527) | | (40,040) |
| Endowment net assets, end of year | \$ | 139,540 | \$ | 785,136 | \$ | 924,676 |

13. SUBSEQUENT EVENTS

In preparing the financial statements, the Foundation has evaluated events and transactions for potential recognition or disclosure through September 20, 2010, the date the financial statements were available to be issued.

NOTES TO SUPPLEMENTAL SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED JUNE 30, 2010

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation – The purpose of the accompanying Supplemental Schedule of Expenditures of Federal Awards (the Schedule) is to present a detail of all programs classified by Federal grantor agency expended by the University of Nebraska (the University) for the year ended June 30, 2010. Because the Schedule presents only a selected portion of the operations of the University of Nebraska, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the University of Nebraska. For the purpose of the Schedule, Federal awards have been classified into two types:

- Direct Federal awards consisting of Federal awards and Federal student financial aid, and
- Pass-through funds received from non-Federal organizations made under federally sponsored programs conducted by those organizations.

Catalog of Federal Domestic Assistance (CFDA) numbers are presented for those programs for which such numbers are available. Programs for which no CFDA numbers are available have been presented under the applicable caption in the Schedule showing the grantor agency number and grant identification number. Those programs without CFDA or grant numbers primarily represent pass-through funds for which such information was not available from the grantor.

The accounting principles followed by the University in each of these areas and used in preparing the accompanying Schedule are as follows:

Reporting Entity – The reporting entity for the Schedule includes the accounts for all of the divisions of the University.

Total Federal Awards – Expenditures for direct costs are recognized as incurred using the accrual method of accounting and the cost accounting principles contained in the U.S. Office of Management and Budget (OMB) Circular A-21, Cost Principles for Educational Institutions and Circular A-133, Audits of States, Local Government, and Non-Profit Organizations. Under those cost principles, certain types of expenditures are not allowable or are limited as to reimbursement. Moreover, expenditures include a portion of costs associated with general University activities which are allocated to Federal awards under negotiated formulas, referred to as "indirect costs." Restricted grants and contracts and other agreements are recognized when funds are expended in accordance with grant provisions.

Expenditures are recognized on the accrual basis for awards made to students and allowable administrative expenses of conducting such programs. Grants with immaterial credit balances resulting from adjustments in the normal course of business to prior year expenditures have been eliminated.

(A Component Unit of the State of Nebraska)

NOTES TO SUPPLEMENTAL SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED JUNE 30, 2010

B. STUDENT FINANCIAL AID LOAN PROGRAMS

The University administers the following federally funded student loan programs:

| | CFDA Number | Outstanding Balances at June 30, 2010 | Disbursements for the Year Ended June 30, 2010 | | |
|----------------------------------------|----------------|---------------------------------------------|---------------------------------------------------------|--|--|
| Federal Perkins Loan Program | 84.038 | \$ 30,701,303 | \$ 3,388,415 | | |
| Nursing Student Loan Program | 93.364 | 447,387 | 113,305 | | |
| Health Profession Student Loan Program | 93.342 | 5,907,106 | 965,538 | | |

Balances and transactions relating to these programs are included in the University's basic financial statements. The University of Nebraska Medical Center (UNMC), University of Nebraska at Omaha, and University of Nebraska at Kearney also participate in the Federal Family Education Loan Program (including Federal Stafford and PLUS loans). The dollar amounts are not listed in the Schedule as the University is not the recipient of the funds. Such programs are considered as a component of the student financial aid major program. Loan disbursements under such programs for the year ended June 30, 2010, totaled \$115,873,664. The University of Nebraska-Lincoln (UNL) and UNMC participate in the Federal Direct Loan Program (including Federal Stafford and PLUS loans). As UNL and UNMC receive these funds directly, the amount (\$110,680,436) is included in the Schedule.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Regents of the University of Nebraska Lincoln, Nebraska:

We have audited the financial statements of the business-type activities and discretely presented component unit of the University of Nebraska (University) (a component unit of the State of Nebraska) as of and for the years ended June 30, 2010 and 2009, which collectively comprise the University's basic financial statements, and have issued our report thereon dated December 17, 2010. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the University of Nebraska Foundation (the Foundation), the discretely presented component unit of the University; the University of Nebraska Facilities Corporation, the UNMC Physicians, the UNeMed Corporation, University Dental Associates, and the Nebraska Utility Corporation, blended component units of the University (collectively identified as the Blended Component Units); and the Obligations under the Master Trust Indenture; as described in our report on the University's financial statements. The financial statements of these entities were not audited in accordance with Government Auditing Standards. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the University's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the University's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the findings and responses in our separately issued management letter that we consider to be significant deficiencies in internal control over financial reporting: Comment Number 1 (Transaction Review and Approval), Comment Number 2 (Capital Assets), Comment Number 3 (Electronic Personnel Action Form (E-PAF) Approval), and Comment Number 4 (Cooperative Extension Bank Accounts). A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We also noted certain other matters that we reported to the management of the University in a separate letter dated December 17, 2010.

The University's responses to the findings identified in our audit are described in the schedule of findings and responses in our separately issued management letter. We did not audit the University's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, Board of Regents of the University of Nebraska, others within the University, and the appropriate Federal and regulatory agencies. However, this report is a matter of public record and its distribution is not limited.

Signed Original on File

Lincoln, Nebraska December 17, 2010 Don Dunlap, CPA Assistant Deputy Auditor

NEBRASKA AUDITOR OF PUBLIC ACCOUNTS

Mike Foley State Auditor Mike.Foley@nebraska.gov P.O. Box 98917 State Capitol, Suite 2303 Lincoln, Nebraska 68509 402-471-2111, FAX 402-471-3301 www.auditors.state.ne.us

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Regents of the University of Nebraska Lincoln, Nebraska:

Compliance

We have audited the University of Nebraska (the University) (a component unit of the State of Nebraska) compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University's major Federal programs for the year ended June 30, 2010. The University's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University's compliance with those requirements.

In our opinion the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2010. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items #10-04 and #10-05.

Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered the University's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program

to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as items #10-03, #10-04, and #10-05. A significant deficiency in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The University's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, Board of Regents of the University of Nebraska, others within the University, Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Signed Original on File

Lincoln, Nebraska February 18, 2011 Don Dunlap, CPA Assistant Deputy Auditor

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Part I: Summary of Auditors' Results

- a) Type of report issued as it related to the University of Nebraska's (the University's) basic financial statements: Unqualified.
- b) Significant deficiencies in internal control were disclosed by the audit of the financial statements and are included in the schedule of findings and questioned costs in Part II as items #10-01, #10-02, #10-03, and #10-04. These findings were not considered to be material weaknesses.
- c) The audit disclosed no instances of noncompliance, which is material to the University's basic financial statements.
- d) Significant deficiencies in internal control over the major programs were disclosed by the audit and are included in the schedule of findings and questioned costs in Part III as items #10-03, #10-04, and #10-05. These findings were not considered to be material weaknesses.
- e) Type of report issued on compliance for major programs: Unqualified.
- f) The audit disclosed audit findings, which are required to be reported in accordance with section .510(a) of OMB Circular A-133 and are included in the schedule of findings and questioned costs in Part III.
- g) The Research and Development Cluster is considered to be the only major program.
- h) Dollar threshold used to distinguish between Type A and Type B programs: \$3,000,000.
- i) The University qualified as a low-risk auditee under OMB Circular A-133 Section .530.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Part II: Findings Relating to the Basic Financial Statements Reported in Accordance with Governmental Auditing Standards:

Finding #10-01

Electronic Personnel Action Form (E-PAF) Approval

E-PAF forms are used to process most personnel actions including processing new hires and pay changes. During our fiscal year ended June 30, 2009, audit we noted some University departments do not document approval of the E-PAF process in SAP, the University's accounting system. During our fiscal year ended June 30, 2010, audit, we noted no change in the University's approval process over E-PAFs as SAP has not been modified to incorporate a workflow approval process for all E-PAFs.

When a new employee is hired, an email is sent to the approving official to notify them that a new hire E-PAF has been "parked" in SAP. "Parking" of an E-PAF is when an E-PAF is entered by an individual having access to enter E-PAFs in SAP but that individual does not have access to approve documents for payment. E-PAFs are not required to be approved. They are normally processed on a negative approval basis. This means the new hire E-PAF will be processed by the HR department unless the HR department receives some information from the department head that the information submitted is incorrect. E-PAFs processed for pay changes are also generally processed on a negative approval basis. They are processed at the departmental level and do not go through the HR department first since the employee is already in SAP.

During our new hire testing for the fiscal year ended June 30, 2010, audit, we noted 1 of 40 E-PAFs tested at the University of Nebraska at Omaha had no documentation on file indicating the approval of the pay change.

A good internal control plan requires adequate documentation to support whether a supervisor/manager has approved the E-PAFs.

Given the fact that it is a negative approval process, if the supervisor/manager's emails are not checked on a regular basis for E-PAFs an employee might be hired or have a pay change without approval.

We again recommend SAP be modified to incorporate a workflow approval process for all E-PAFs.

Management Response: The University respectfully disagrees that this finding is a significant deficiency. The E-PAF function is used at the University's four campuses in addition to paper PAF's. The E-PAF functions as an electronic notice to administrators a personnel action will occur unless they object. Copies of E-PAF's were printed and signed at certain locations during the year to document the action in the employee's personnel file. This practice was implemented at all University locations in October, 2010. The person signing the E-PAF must be someone other than the preparer of the E-PAF. We believe these procedures adequately document personnel actions initiated by an E-PAF.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

APA Response: AICPA Audit Standard AU Section 325.07 states "A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance." We believe this finding merits attention by the Board of Regents and is appropriately identified as a significant deficiency in compliance with auditing standards.

We continue to recommend that a workflow approval process in SAP would be a more effective corrective action than the management's manual processes.

Finding #10-02

Cooperative Extension Bank Accounts

The University of Nebraska-Lincoln (UNL) has University employees working in County Extension offices throughout the State. It was determined these County Extension offices had 70 University bank accounts that the UNL accounting office was not aware existed. These bank accounts had the University's Federal Tax Identification Number (FTIN) and were established by the UNL Cooperative Extension Department many years ago. It was also determined the bank activity and cash balances of these bank accounts were not and have never been accounted for in SAP, the University's accounting system, and in UNL's financial statements. We noted these 70 bank accounts had a cash balance of \$1,266,810 as of June 30, 2009, with activity of \$1,443,191 in deposits, and \$1,413,032 in withdrawals for the fiscal year ended June 30, 2010, resulting in a June 30, 2010, balance of \$1,296,969. UNL provided no documentation to support specific statutory authority for these bank accounts.

Upon bringing this issue to the attention of UNL, they have indicated to us, that based on their preliminary research, they do not believe these bank accounts are University bank accounts because the County Extension offices operate under an Interlocal Agreement between the State of Nebraska, the various counties, and the University. As such, they are separate entities and the activity of these accounts is not activity of the University.

A good internal control plan and policies and procedures would require the UNL accounting department be made aware of all bank accounts with the University's FTIN, controls over those bank accounts be established, and if it is determined the activity of these bank accounts is activity of the University, that activity and fiscal year end balances should be recorded in SAP and fiscal year end financial statements.

When internal controls and policies and procedures are not in place to identify all bank accounts with the University's FTIN, there is a greater risk that controls over such bank accounts may not be in place to ensure they are being used in accordance with overall University policies, and the activity and cash balances may not be recorded in SAP resulting in the revenues, expenses, and cash balances of UNL's financial statements to be understated by these amounts.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

We first recommend UNL determine if these bank accounts should be University bank accounts. If it is determined they are not, then UNL should work with appropriate county and State officials to determine the proper accounting for these bank accounts. If they are determined to be University bank accounts, we recommend UNL work with the State Treasurer to determine all banking relationships at UNL are authorized, policies and procedures be established to ensure all UNL bank accounts are identified, and the activity and balances of these bank accounts be recorded in SAP and reported in the financial statements.

Management Response: The University respectfully disagrees that this is significant deficiency. The Auditor, in fact, states "if it is determined the activity of these accounts is the activity of the University." As explained to the Auditor, the extension division is controlled by a Board that is, in essence, the County Commissioners, and not the Board of Regents. Governance is one of the primary criterions in deciding what accounting entity should record activity of the extension units in its financial statements. It is unlikely that the University could redirect cash amounts in question to University purposes, making their inclusion as University assets even more questionable.

Regardless, the University will work to clarify the nature of the cooperative extension accounts in conjunction with the county extension boards.

APA Response: AICPA Audit Standard AU Section 325.07 states "A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance." We believe this finding merits attention by the Board of Regents and is appropriately identified as a significant deficiency in compliance with auditing standards.

We continue to recommend that all funds and transactions in bank accounts opened under the University's FTIN be included in the preparation of the University's financial statements. If the University determines these funds are not the University's, then these accounts should be closed as soon as practical.

Finding #10-03

We noted expenditure and journal entry transactions on SAP did not have a system required documented review and approval prior to these transactions being posted to the general ledger. This finding relates to both the University's basic financial statements and Federal awards and the complete finding, including the University's Management Response and Corrective Action Plan, may be found in Part III of this Schedule.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Finding #10-04

We noted several exceptions regarding the University's capital assets, including internal controls and compliance with State and Federal requirements. This finding relates to both the University's basic financial statements and Federal awards and the complete finding, including the University's Management Response and Corrective Action Plan, may be found in Part III of this Schedule.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Part III: Findings and Questioned Costs Relating to Federal Awards:

Finding #10-03

Transaction Review and Approval

Program: CFDA 47.081 – Office of Experimental Program to Stimulate Competitive Research; CFDA 93.389 – National Center for Research Resources; and CFDA 81.049 –Office of Science Financial Assistance Program; due to the cross-cutting nature of this finding all Research and Development (R & D) including ARRA R&D CFDAs are also impacted - Allowability

Grant Number & Year: #701892, 7/4/2009; #2P20RR016469-09, 5/1/2009; #DE-FG02-08ER64579, 7/15/2008

Federal Grantor Agency: National Science Foundation, U.S. Department of Health & Human Services and U.S. Department of Energy

Criteria: A good internal control plan requires proper segregation of duties to ensure no one individual can process a transaction from beginning to end. A good internal control plan also requires a documented review and approval of all transactions before they are posted to the General Ledger. A good internal control plan further requires access to process journal entries be given only to those individuals who routinely need to post journal entries. A good internal control plan also requires an adequate segregation of duties ensuring individuals processing payments on SAP are not able to also perform the receiving function on SAP.

OMB Circular A-133, § 300 Auditee responsibilities, states "The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

OMB Circular A-133 June 2010 Compliance Supplement Part 6 states "This Part 6 describes characteristics of internal control relating to each of the five components of internal control that should reasonably assure compliance with the requirements of Federal laws, regulations, and program compliance requirements." Control Activities are one of the five components of internal control and Part 6 states "Control Activities are the policies and procedures that help ensure that management's directives are carried out." Examples of Control Activities noted in Part 6 is "Adequate segregation of duties provided between performance, review, and recordkeeping of a task." Part 6 further notes that Control Activities for the Activities Allowed or Unallowed and Allowable Costs/Cost Principles compliance requirements include "Adequate segregation of duties in review and authorization of costs."

Condition: Four of sixty transactions tested for the University-wide A-133 Single Audit of Federal Funds did not have supporting documentation of approval by someone other than the person preparing the transaction. One of those transactions was a journal entry.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

We also noted the following during our testing for the University's Basic Financial Statements:

- The MM_AP_MAINTAIN Role in SAP, the University's accounting system, allows an individual to process an expenditure transaction from beginning to end on SAP.
- For 1 of 25 operating expenditures tested and for 1 of 5 capital expenditures tested at the University of Nebraska-Lincoln (UNL), we noted the same individual performed the purchasing, receiving, and approval functions for a transaction. In addition for 1 of 5 capital expenditures tested, we noted the same individual performed both the receiving and approval functions for the transaction.
- For 6 of 33 transactions tested at the University of Nebraska Medical Center (UNMC), we noted payments were made based solely on the parking of an invoice by a department or the receipt of an invoice from a vendor. We also noted that the payables staff at UNMC will perform both the receiving and payment functions on SAP for some transactions. In addition, we noted a negative approval process is used for framework purchases.
- For 6 of 25 transactions tested at the University of Nebraska at Omaha (UNO), we noted payments were made based on the campus' undocumented procedure that payables under \$5,000 from four departments do not require documented departmental approval for payment. We also noted on 1 of 25 documents tested the invoice was not properly approved. We further noted a negative approval process was used for framework purchases.

Questioned Costs: None

Context: Our prior two audits of the Basic Financial Statements, noted all campuses of the University had a large number of individuals with the ability to prepare and post journal entries on SAP, the University's accounting system, without a review or approval by anyone else. Although the University had taken corrective action to review and reduce the overall number of individuals who can perform this function, we again noted for the fiscal year ended June 30, 2010, the University had 653 individuals University-wide, with 535 individuals processing over 40,331 journal entries. In the prior two years we had recommended the University establish a policy that all journal entries be reviewed and approved by someone other than the person preparing the journal entry prior to it being posted in SAP. This approval should be done by an individual with the knowledge to understand the journal entry, to ensure it is properly supported, and to determine it is a proper journal entry for the University. We also recommended the University review the need for such a large number of individuals having access to process journal entries on SAP.

The process of allowing one individual to prepare and post journal entry transactions without a review or approval by another individual is the same process used for journal entry transactions posted to the Research and Development Cluster. The one journal entry transaction without documentation of approval noted during the audit of the Research and Development Cluster was processed at UNL. The amount of the journal entry was \$339.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

The University responded to this comment in our fiscal year ended June 30, 2009, management letter by noting they had deployed functionality of its administrative system to end users in departments and colleges, granting them authorization to charge expenses to sub-cost centers by journal entry and credit primary cost centers. The University agreed an ideal practice would be to have real time sign off, but the practicality of the ideal, in a decentralized, end-user empowered environment, with limited staffing in some areas, will not always be possible. The University has employed detective, budgetary, and other compensating controls to mitigate the risk of incorrect charges. Mitigating detective controls include the review of expenses by principal investigators and departmental staff through on-line real-time access to the system. Similar controls are present through review of transactions by campus sponsored programs office staff during the preparation and filing of Federal financial status reports.

University management again indicated to us that most individuals who prepare and post journal entries are accounting clerks within the various departments. University management believes these individuals need the ability to perform this function. In addition, University management indicated an after the fact review of journal entries is made at various levels; however, this review is generally not required or documented.

The University's Corrective Action Plan in the fiscal year ended June 30, 2009, management letter noted the following: The University will continue to scrutinize its practices in this area to achieve separation of end user duties in areas, where possible, and to maintain and enhance detective and budgetary controls in department research offices and the campus sponsored program finance offices.

For the current year, compared to the prior year, there has been no significant change in the University's policies or procedure or in the number of individuals who can prepare and post a journal entry.

The other three transactions from the A-133 audit without documentation of approval noted during the audit of the Research and Development Cluster were direct or purchase order payments processed at UNMC. For document #44261414 in the amount of \$3,850, we noted the payment was for a scholarship for participation in the Biomedical Research Infrastructure Network (BRIN) program. The "Recommendation for Fellowship or Scholarship" was not approved by the department chair or college dean. For documents #44235242 for \$88 and #44274519 for \$108, we noted payments were made for tank rental and gases to be ordered as needed. Invoices are received monthly. The Purchase Orders were framework purchase orders. A framework purchase order is an open-ended or blanket purchase order and no approval is required in SAP. Per the Accounts Payable (A/P) manager, a negative approval process is followed for framework purchase orders. The A/P department processes the invoice for a framework purchase order and then sends the ordering department a copy of the payment voucher and invoice processed. Negative approval operates on the basis that the transaction is authorized and correct as processed. If there is an issue with the receipt and/or payment noted after processing, the department is to notify the A/P department and the vendor.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

The MM_AP_MAINTAIN function allows an employee to enter an Invoice/Payable, modify an Invoice/Payable, and Post/Approve an Invoice/Payable. Each campus and Central Administration has employees set up in SAP in this manner. On a University-wide basis, there were 72 employees that had this capability as of June 2010. It was also noted each campus and Central Administration had a total of 22 employees who could also post and approve documents in EnterpriseOne, the State of Nebraska Accounting System, that also had access in SAP to the above role. The University must use EnterpriseOne to make all cash payments out of the State Treasury. Thus 22 employees have the ability to process a transaction from beginning to end. We also noted there were several instances in which one individual performed multiple functions for a transaction.

We noted the University processes some direct payment items based solely on the parking of an invoice by a department or the receipt of an invoice from a vendor. Parking of an invoice is when an invoice is entered by an individual having access to enter documents in SAP, the University's Accounting System, but that individual does not have access to approve documents for payment.

The total dollar amount of the three transactions at UNL was \$21,599.

The six transactions processed at UNMC totaled \$11,108.

The total dollar amount of the six transactions from the four departments at UNO was \$2,310. The one transaction was for \$672.

Cause: The University has indicated that a policy for review and approval of all transactions prior to posting to the general ledger in SAP is not practical due to decentralized processing and limited staffing.

Effect: When a large number of individuals can prepare and post transactions to the general ledger in SAP without a documented review and approval, there is a greater risk erroneous or inappropriate journal entries could be posted and go undetected. There is also an increased risk of loss or misuse of University funds when there is not an adequate segregation of duties.

Recommendation: We again recommend the University establish a policy that all journal entries be reviewed and approved by someone other than the person preparing the journal entry prior to it being posted in SAP. This approval should be done by an individual with the knowledge to understand the journal entry, to ensure it is properly supported, and to determine it is a proper journal entry for the University. We believe a proactive model with a real-time, work-flow review and approval process prior to journal entries being posted in SAP is reasonable and practicable. A proactive control is more likely to detect an erroneous or inappropriate journal entry than a detective control.

We also recommend the University review roles for processing Invoice/Payables in SAP and revise those roles to include a work flow approval system to provide an adequate segregation of

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

duties. We further recommend that an adequate segregation of duties be implemented to ensure no one individual can perform all three phases of the purchasing cycle: ordering, receiving, and payment.

Management Response: The University respectfully disagrees that this finding is a significant deficiency. The Auditor states a good internal control plan requires segregation of duties. The University believes an internal control plan encompasses a framework of all five standards for Internal Control, those being control environment, risk assessment, control activities, information and communication, and monitoring. Segregation is but one part of one element of this framework. Elements of all five standards determine both preventative and detective controls placed into practice. The absence of a second approval of journal entries does not mean adequate controls are not present.

Part 6 of the OMB Circular A-133 compliance supplement for 2010 indicates an entity must exercise judgment in determining the most appropriate and cost effective internal control in a given environment or circumstance to provide reasonable assurance for compliance with Federal program requirements. The University has employed detective, budgetary, and compensating controls to address control activities and the spirit of a good internal control plan. The University provides reasonable assurance that transactions are properly recorded, accounted for, and compliant, by reviewing expenses after they are posted. The University agrees a second approval of all journal and accounts payable entries would be ideal if unlimited resources were available and we continue to seek improvement in this area. However with other controls present, this is not always cost-effective.

Corrective Action Plan: The University will continue to assess transactional risks and mitigating controls relating to processing journal entries and accounts payable and introduce additional controls where practicable and cost/beneficial.

Contact: Keith Lauber, Director of University Accounting

Anticipated Completion Date: On-going.

APA Response: AICPA Audit Standard AU Section 325.07 states "A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance." We believe this finding merits attention by the Board of Regents and is appropriately identified as a significant deficiency in compliance with auditing standards.

We continue to recommend preventative controls, such as a workflow approval process in SAP, be incorporated into the University's internal control framework for journal entries and payable transactions. Reliance on the detective controls as noted in management's response, without the incorporation of some preventative controls, may result in an increased risk of inappropriate or erroneous transactions being processed and not detected.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Finding #10-04

Capital Assets

Program: Research and Development (R & D) Cluster including ARRA R & D - Equipment and Real Property Management

Grant Number & Year: All Research and Development grants with capital asset expenditures over various years

Federal Grantor Agency: Various, including the U.S. Department of Health and Human Services and the U.S. Department of Defense

Criteria:

Federal Regulations and Internal Control

2 C.F.R. § 215.34 (January 1, 2009) states:

- "(f) The recipient's property management standards for equipment acquired with Federal funds and federally-owned equipment shall include all of the following:
 - (1) Equipment records shall be maintained accurately and shall include the following information.
 - (i) A description of the equipment.
 - (ii) Manufacturer's serial number, model number, Federal stock number, national stock number, or other identification number.
 - (iii) Source of the equipment, including the award number.
 - (iv) Whether title vests in the recipient or the Federal Government.
 - (v) Acquisition date (or date received, if the equipment was furnished by the Federal Government) and cost.
 - (vi) Information from which one can calculate the percentage of Federal participation in the cost of the equipment (not applicable to equipment furnished by the Federal Government).
 - (vii) Location and condition of the equipment and the date the information was reported.
 - (viii) Unit acquisition cost.
 - (ix) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a recipient compensates the Federal awarding agency for its share.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

- (2) Equipment owned by the Federal Government shall be identified to indicate Federal ownership.
- (3) A physical inventory of equipment shall be taken and the results reconciled with the equipment records at least once every two years. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The recipient shall, in connection with the inventory, verify the existence, current utilization, and continued need for the equipment.
- (4) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented; if the equipment was owned by the Federal Government, the recipient shall promptly notify the Federal awarding agency.
- (5) Adequate maintenance procedures shall be implemented to keep the equipment in good condition.
- (6) Where the recipient is authorized or required to sell the equipment, proper sales procedures shall be established which provide for competition to the extent practicable and result in the highest possible return.
- (g) When the recipient no longer needs the equipment, the equipment may be used for other activities in accordance with the following standards. For equipment with a current per unit fair market value of \$5,000 or more, the recipient may retain the equipment for other uses provided that compensation is made to the original Federal awarding agency or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the equipment. If the recipient has no need for the equipment, the recipient shall request disposition instructions from the Federal awarding agency."

OMB Circular A-133, § 300 Auditee responsibilities, states "The auditee shall: . . . (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

A good internal control plan requires procedures to ensure certain types of equipment are monitored to help ensure the equipment is not lost or misappropriated. In addition, a good internal control plan would include procedures to complete a physical inventory of all capital assets in the possession of the campus. Additionally, adequate documentation should be maintained to support the equipment disposals recorded.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

State Statute

Neb. Rev. Stat. § 81-1118.02(1) (Reissue 2008) states, "Each executive, department, commission, or other state agency, including the Supreme Court, the Board of Regents of the University of Nebraska, the State Board of Community Colleges, and the Board of Trustees of the Nebraska State Colleges, shall annually make or cause to be made an inventory of all property, including furniture and equipment, belonging to the State of Nebraska and in the possession, custody, or control of any executive, department, commission or other state agency. The inventory shall include property in the possession, custody, or control of each executive, department, commission, or other state agency as of June 30 and shall be completed and filed with the materiel administrator by August 31 of each year."

Neb. Rev. Stat. § 81-1118.02(3) (Reissue 2008) states, "Each such executive, department, commission, or other state agency shall indelibly tag, mark, or stamp all such property belonging to the State of Nebraska, with the following: Property of the State of Nebraska. In the inventory required by subsection (1) of this section, each such executive, department, commission, or other state agency shall state positively that each item of such property has been so tagged, marked, or stamped."

Accounting Standards

GASB Codification section 1400 states "Capital Assets should be reported at historical cost."

Sound accounting practice requires the disposal of capital assets on the accounting system to be based on when a capital asset is no longer in the possession of the campus and not when an item is fully depreciated.

Condition and Context: During our previous two audits, we noted several areas where control over University capital assets could be improved. During our current audit, we noted the University took some corrective action based on our prior recommendation, but we again noted the following in our review of the capital asset records at the various campuses:

The University does not require equipment costing less than \$5,000 to be marked as "Property of the State of Nebraska."

The University did not have University-wide procedures to control access to certain types of equipment under \$5,000—such as laptop computers, cameras, and other electronic equipment. When this issue was first brought up two years ago, the University of Nebraska-Lincoln (UNL) had begun implementing a procedure to inventory such items on SAP (the University's accounting system) using the "Objects on Loan" feature in the Human Resources module. This process is still not fully implemented at UNL. All other campuses of the University have begun using this module in SAP as well, but have not yet fully implemented this process.

The University's policy is to take an inventory of their capital assets every two years. However, State statute requires an inventory be taken annually.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

At the campus level we noted the following in our testing of capital asset processes and controls during our audit:

University of Nebraska-Lincoln (UNL)

- We noted UNL is the only campus that does not enter a last inventoried date on SAP. Because this information was not recorded on SAP, we were unable to determine how many, if any, items had not been inventoried in the last two years.
- In our detailed test of capital assets purchased with Federal funds, we noted the following:
 - 1. For 3 of 25 assets tested, the asset either could not be located or the location could not be verified as the asset was not tagged and did not contain alternate identifying information. (One asset could not be located and two were not properly tagged).
 - 2. For 3 of 24 assets tested, it appeared there was no physical inventory review completed during the two year period under review (July 1, 2008 June 30, 2010). (Each of these assets were inventoried during the 2010 annual departmental review; however, that review was not completed until October 5, 2010, (due April 2010) and the department did not complete their fiscal year 2009 inventory review at all; therefore, it appears no inventory was completed from July 1, 2008, through June 30, 2010.)
 - 3. For 2 of 24 assets tested, there was no approval of the annual department inventory review, nor any other indication that the inventory listing was reviewed and verified.
 - 4. UNL requires each department to review their entire inventory each year by confirming the room number for each asset and having the department chair sign and date the inventory listing. During testing it was noted that not all departments appeared to follow this policy as some sent back emails with the listing. In addition, of those returned with the department chair's signature, it was not always clear the room number had indeed been verified for each asset. Therefore, the auditors believe UNL could improve on these procedures by requiring departments to either expressly state that each asset was reviewed or have a notation (such as a checkmark) on the listing indicating that the room number was verified for each asset.
 - 5. The auditor noted that UNL's policy for the transfer of Federal equipment from one research institution to another (following the Principal Investigator) is not in compliance with Federal requirements as it does not require proper notification to the Federal awarding agency of the transfer in order to ensure the asset is accounted for properly in the future.
 - 6. During our review of the disposal listing, we noted one asset was disposed of for \$6,000, however, the proceeds were not remitted to the Federal awarding agency.

University of Nebraska at Omaha (UNO)

- We noted 9 items had yet to be inventoried in the last two years, none of which related to Federal grants.
- In our detailed test of capital assets purchased with Federal funds we noted the following:

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

- 1. For three of nine Federal assets tested, documentation was not available to verify that a physical inventory review was completed within the last two years in accordance with Federal requirements.
- 2. For three of ten Federal assets tested, the asset was not properly tagged. Two of these three assets could not be verified as the correct asset through alternate means.
- 3. For one of four Federal asset purchases tested, the asset was purchased with Federal funds but was not properly noted as a federally funded asset on the asset record in the accounting system.

University Nebraska Medical Center (UNMC)

- As of May 2010 UNMC reported to us they had 97 items with a net book value of approximately \$174,000 that had not been inventoried in over two years. We also noted they had 183 items with a net book value of approximately \$4 million that had been received but did not have a tag number after six months. There were also 456 items with a book value of approximately \$11.1 million that had been assigned to a location or person, but not issued a tag number. During our final fieldwork conducted in October 2010, we noted UNMC had made progress in inventorying and tagging items.
- Certain capital asset items were not inventoried and were not tagged and there was no supporting documentation for one of one equipment disposal tested. The disposal was made because the item was fully depreciated and had a zero book value. Specifically, we noted no physical inventory was completed for capital assets that are included in the category "assigned." Certain capital assets are not tagged but are assigned a tag number. According to discussion with UNMC staff these are items that are located in restricted access areas where the tag may interfere with research. These items are identified with a code "A" in SAP (the University's accounting system). The disposal tested was an "assigned" item with a purchase cost of \$228,754 and accumulated depreciation of \$228,754. No support was available to document the disposal. We were unable to physically observe the asset and verify UNMC still had possession of it because it was in a restricted area. Per discussion with UNMC management, the item was disposed of on SAP only because it was fully depreciated, not because the campus no longer had possession of the item. There were 498 "assigned" items in SAP at June 30, 2010, with a historical cost of \$26,152,761 and accumulated depreciation of \$14,121,890. Forty-five of these "assigned" items with a historical cost of 2,024,201 and accumulated depreciation of \$1,123,324 had been purchased with Federal grant money. Total "assigned" items disposed of in the fiscal year ended June 30, 2010, were \$3,542,960. Total "assigned" items disposed of in the fiscal year ended June 30, 2009, were \$3,328,489. It is unknown how many of the fiscal year ended June 30, 2010, or fiscal year ended June 30, 2009, "assigned" items disposed of were still in the possession of the campus. The financial statement impact of this process is that the financial statements of UNMC are correctly stated as the amount reported for capital assets is reported at net book values-original cost less depreciation expense. However, the amounts disclosed in the footnotes of the financial statements for UNMC's equipment would be understated and amounts disclosed as depreciation on their equipment would also be understated.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

- In our detailed test of capital assets purchased with Federal funds, we noted the following:
 - 1. For 1 of 25 assets tested, it appeared the asset had not been physically inventoried since acquisition, as no inventory date was noted in the accounting system as of June 30, 2010. This asset was acquired in October 2003.
 - 2. For 4 of 25 assets tested, no documentation could be obtained to support the last inventory date noted in SAP (as of June 30, 2010).
 - 3. For 8 of 25 assets tested, adequate documentation could not be obtained to verify the asset was actually observed and the location verified via the annual departmental inventory review.
 - 4. For 3 of 25 assets tested, the asset could not be located. Two of the three assets were determined to not be available as they had been disposed of without the department properly notifying General Accounting of the disposal.
 - 5. For 4 of 25 Federal assets tested, the asset was not properly tagged. A portion of these assets were able to be verified through alternate means and for one of these four, the auditor observed the asset was subsequently tagged.
 - 6. UNMC annually performs an inventory review by sending out lists of assets to each department for them to locate and verify. These lists are then sent back to UNMC's, accountant with any changes noted. During our testing it was noted that these lists were not consistent in noting whether or not the assets had actually been located. Therefore, the auditor believes UNMC could improve on these procedures by requiring departments to either expressly state that each asset was reviewed or have a notation (such as a checkmark) on the listing indicating that the room number was verified for each asset.
 - 7. In addition, the auditor noted UNMC's policy for the transfer of Federal equipment from one research institution to another (following the Principal Investigator) was not in compliance with Federal requirements as it does not require proper notification to the Federal awarding agency of the transfer in order to ensure the asset is accounted for properly in the future.

University-wide capital asset issues

In addition, the following findings were noted for the University as a whole.

- 1. The auditor noted the University did not have adequate information within the asset records to enable certain assets purchased prior to the implementation of the current accounting system (prior to 7/1/1999) to be efficiently identified by grant or major program. Specifically, it was noted that 354 assets or 18% of all Federal equipment on the University's capital asset listing were not able to be identified as Federal Research & Development assets or not based on the information available in the asset record.
- 2. It appears the disposal process at each campus could be improved as detailed disposal information was not sent back to each campus' accounting department upon the disposal of assets. As such, adequate disposal information including selling price and/or recipient of disposed asset was not available in the accounting system.

Questioned Costs: \$6,000

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Cause: Lack of University-wide policies, procedures, and controls. Policies related to "assigned" equipment appear to have been made because the equipment is in restricted areas and is not accessible to accounting staff.

Effect: When statutory requirements and accountability standards are not being followed, the University assumes additional risks assets will be misused or stolen. When fully depreciated capital assets that are still in the possession of the University are disposed of on SAP, capital assets, acquisition cost, and accumulated depreciation will be understated. In addition, when adequate controls over Federally funded equipment are not in place or not working there is an increased risk of loss or misuse of Federal funds. Also, the University is not in compliance with Federal requirements.

Recommendation:

- 1. Property belonging to the State of Nebraska be marked "Property of the State of Nebraska" as required by State statute.
- 2. The University establish University-wide policies and procedures to ensure accountability over items more susceptible to theft. Those controls might include requiring a listing of such items, which indentifies the item and to whom it is assigned.
- 3. The University take an annual inventory as required by State statute.
- 4. For capital assets purchased with Federal funds we recommend the following:
 - The University work with the cognizant, Federal agency to determine an appropriate corrective action plan in order to address the Federal program identification of assets purchased prior to the implementation of the current accounting system.
 - The University improve control procedures over Federally funded equipment to ensure assets are properly tagged, noted as Federal equipment, and properly inventoried on at least a biennial basis in accordance with Federal requirements.
 - The University improve policies such as developing a consistent policy for annual inventory reviews by each department.
 - UNMC revise their transfer of Federal equipment policy to ensure it is in compliance with Federal requirements.
 - The University enhance procedures over the disposal of Federal equipment including adding information regarding proceeds from sales of equipment in the asset records, as well as procedures to ensure all proceeds from the sale of Federal equipment over \$5,000 are remitted back to the Federal awarding agency in accordance with Federal regulations.
- 5. As relates to procedures related to capital assets identified by UNMC as "assigned," we recommend policies and procedures be developed and put in place which ensure all disposals are supported by documentation. Disposals of capital assets should not be based on when an item is fully depreciated, but on when a capital asset is no longer in the possession of the campus.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Management Response: The University respectfully disagrees that this finding is a significant deficiency. The University's capitalization policy provides for equipment costing \$5,000 or more to be capitalized and depreciated over its expected life. Capital equipment is tagged and added to the capital assets file in the SAP administrative system and inventoried every two years which is compliant with OMB Circular A-110. While a state statute dating back to the 1930's and 1940's provides for an annual equipment inventory, the University is working with DAS to streamline state statutes to call for a physical inventory every two years, congruent with Federal expectations.

Items susceptible to theft are assigned to a responsible person or department in the Objects on Loan module of the SAP system or through an equipment tracking database. The responsible persons are accountable for the whereabouts and use of those items. The University continues to work toward final implementation of the objects on loan module.

UNL agrees that the \$6,000 of funds realized from sale of federally funded equipment should be remitted to the funding agency. Additional emphasis will be placed on documenting cash proceeds realized from the disposal of Federal equipment.

The University of Nebraska Medical Center has discontinued its practice of removing certain equipment from the capital assets file when fully depreciated and will only remove equipment when it is disposed of or can not be located by the user department.

Corrective Action Plan: The University will complete the implementation of the Objects on Loan Module at the UNL campus and remit the sales proceeds of \$6,000 to the funding agency.

Contact: Mary W. LaGrange, UNL Controller, and Jeanne M. Wicks, UNL Director of Sponsored Programs

Anticipated Completion Date: June 30, 2011

APA Response: AICPA Audit Standard AU Section 325.07 states "A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance." We believe this finding merits attention by the Board of Regents and is appropriately identified as a significant deficiency in compliance with auditing standards.

The date a state statute was enacted does not alleviate the University's responsibility to comply with the statute. We continue to recommend the University comply with all relevant state statutes, including those regarding assets.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Finding #10-05

Match – University of Nebraska – Lincoln (UNL)

Program: CFDA 10.001 – Agricultural Research – Basic and Applied Research; CFDA 12.300 – Basic and Applied Scientific Research; CFDA Unassigned – National Aeronautics and Space Administration (NASA) – Matching

Grant Number & Year: #58-5440-4-371, 7/20/2004; #2005-081-04-SC26 pass through from #NNG05GJ03H, 1/1/2009; and #SDSM&T-UNL 06-24 pass through from #N00014-06-1-0616, 4/6/2006

Federal Grantor Agency: U.S. Department of Agriculture, U.S. Department of Defense, and NASA

Condition: University of Nebraska-Lincoln (UNL) does not have effective internal controls to ensure compliance with matching requirements.

For 3 of 6 grants tested, the cost share reported included amounts that were not allowable. In addition, one of these did not meet the match requirement as stated in the grant agreement or contract.

Questioned Costs: None

Criteria: OMB Circular A-133 § 300 states, "The auditee shall:... (b) maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

2 C.F.R. § 215.23(a) (January 1, 2009) states, "All contributions, including cash and third party in-kind, shall be accepted as part of the recipient's cost sharing or matching when such contributions meet all of the following criteria. (1) Are verifiable from the recipient's records..."

Per grant number SDSM&T-UNL 06-24, UNL must provide match funds of \$160,728 for the project.

Cause: We noted Personnel Activity Reports (PARs) were not received prior to the submission of final reports, manual PARs were not recertified after subsequent changes were made to the PARs, and calculation errors.

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Context:

| | Effect of Transgened from Sorghum on the Fitness of Shattercane X Sorghum Hybrids See #1 and #2 below | Modeling and Experimental Studies of Spin Transport for Multifunctional Semiconductor Devices See #2, #3 and #4 below | Modeling and Simulation in Electrical and Computer Engineering See #3 below |
|----------------------------|-------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------|
| Grant Number | 58-5440-4-371 | SDSM&T-UNL 06-24 | 2005-081-04-SC26 |
| Project Period | 7/20/04-7/19/09 | 4/6/06-5/31/10 | 1/1/09-3/31/10 |
| Federal Funds Awarded | \$ 100,000 | \$ 143,795 | \$ 2,000 |
| Match Required | \$ 59,182 | \$ 160,728 | \$ 4,078 |
| Match Reported | \$ 66,035 | \$ 160,728 | \$ 4,881 |
| Unallowable Match Reported | \$ 1,817 | \$ 49,093 | \$ 411 |
| Allowable Match Reported | \$ 64,218 | \$ 111,635 | \$ 4,470 |
| Match Requirement Met | Yes | No | Yes |

Reasons for Unallowable Costs:

- 1. Salaries used to calculate cost share could not be traced to SAP (Grant: #58-5440-4-371).
- 2. The percent of effort reported on the project did not agree to PARs or no support could be provided (Grants: #58-5440-4-371; #SDSM&T-UNL 06-24).
- 3. Employees' work period on the project could not be supported, as no PARs were available (Grants: #SDSM&T-UNL 06-24; #2005-081-04-SC26).
- 4. Personnel costs reported as cost share included employees that were not working on the project (Grant: #SDSM&T-UNL 06-24).

Effect: The University was not in compliance with matching requirements.

Recommendation: We recommend internal controls be implemented to ensure matching compliance requirements are met. Cost share should be accounted for in SAP and match amounts compiled should be reviewed to ensure match expenditures are appropriate.

Management Response: The University respectfully disagrees that this finding is a significant deficiency. While it is acknowledged that the matching requirement was miscalculated for one grant tested, we do not believe this rises to the reporting level assigned by the auditor.

Corrective Action Plan: Internal controls at UNL will be strengthened to ensure matching requirements are met. This will include additional training of both Sponsored Programs staff and Departmental liaisons. Monthly Cost Share reports will continue to be monitored by the Project Specialists. Cost share is currently accounted for in SAP and companion cost objects will be used if the project warrants. A new Retroactive Payroll Form requires and

(A Component Unit of the State of Nebraska)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

strengthens review of any PAR form affected. On a semi-annual basis an additional, second review of all projects with matching requirements will be conducted by the Effort Coordinator position to ensure that match amounts compiled are correct and projections for the life of the project are made to help ensure match expenditures are appropriate and in compliance with award amounts.

Contact: Jeanne M. Wicks, UNL Director of Sponsored Programs

Anticipated Completion Date: June 30, 2011

APA Response: AICPA Audit Standard AU Section 325.07 states "A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance." We believe this finding merits attention by the Board of Regents and is appropriately identified as a significant deficiency in compliance with auditing standards.

We believe an error rate of 50% of grants tested (three of six) reporting unallowable expenditures for Federal matching grant compliance requirements, resulting in an error rate of 17% of grants tested (one of six) not meeting these requirements, is very significant to the University's internal control over these requirements. This deficiency places the University's Federal grant funds with matching requirements at an increased risk of being subject to sanctions, including the return of funds to Federal agencies or pass through entities.

Finding #10-06

Allowability of Health Insurance Expenditures

Program: Research and Development (R & D) Cluster, including ARRA R & D; due to the cross-cutting nature of this finding, all CFDAs with employee health insurance expenditures are also impacted – Allowable Costs/Cost Principles

Grant Number & Year: Various, including all grants with employee health insurance expenditures

Federal Grantor Agency: Various, including U.S. Department of Agriculture, U.S. Department of Defense, U.S. National Science Foundation, U.S. Department of Education, and U.S. Department of Health and Human Services.

Criteria: OMB Circular A-21 Attachment § A.2.e states, "...the accounting practices of individual colleges and universities must support the accumulation of costs as required by the principles, and must provide for adequate documentation to support costs charged to sponsored agreements." Section C.1 states, "The cost of a sponsored agreement is comprised of the allowable direct costs incident to its performance..." Section C.2 states further, "The tests of allowability of costs under these principles are: (a) they must be reasonable; (b) they must be

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

allocable to sponsored agreements under the principles and methods provided herein; (c) they must be given consistent treatment through application of those generally accepted accounting principles appropriate to the circumstances; and (d) they must conform to any limitations or exclusions set forth in these principles or in the sponsored agreement as to types or amounts of cost items." Section C.4.d.1 states, "The recipient institution is responsible for ensuring that costs charged to a sponsored agreement are allowable, allocable, and reasonable under these cost principles."

Neb. Rev. Stat. § 84-305 (Reissue 2008) states, "The Auditor of Public Accounts shall have access to all records of any public entity, in whatever form or mode the records may be, unless the auditor's access to the records is specifically prohibited or limited by federal or state law. No provisions of state law shall be construed to change the nonpublic nature of the data obtained as a result of the access. When an audit or investigative finding emanates from nonpublic data which is nonpublic pursuant to federal or state law, all the nonpublic information shall not be made public."

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) is codified at 42 U.S.C. § 1320d et seq. The HIPAA Administrative Simplification Regulations are found at 45 CFR 160, 162, and 164. These include the Privacy Rule, which is located at 45 CFR Part 160 and Subparts A and E of Part 164. Though designed to protect the privacy of individually identifiable health information held by either a covered entity or a business associate thereof, HIPAA provides a number of important exceptions to that general rule.

According to 45 CFR § 160.203, "A standard, requirement or implementation specification adopted under . . . [HIPAA] that is contrary to a provision of State law preempts the provision of State law." However, that regulation sets out specific exceptions under which a covered entity is not required to comply with a contrary provision of HIPAA. Among those is one found at 45 CFR § 160.203(d), which says: "The provision of State law requires a health plan to report, or to provide access to, information for the purpose of management audits, financial audits, program monitoring and evaluation, or the licensure or certification of facilities or individuals." As explained at 42 U.S.C. § 1320d-7(c), "Nothing in this part shall limit the ability of a State to require a health plan to report, or to provide access to, information for management audits, financial audits, program monitoring and evaluation, facility licensure or certification, or individual licensure or certification."

Under 45 CFR § 164.512(d)(1), "A covered entity may disclose protected health information to a health oversight agency for oversight activities authorized by law, including audits..." 45 CFR § 164.501 defines a "health oversight agency" as "an agency or authority of the United States, a State, a territory, a political subdivision of a State or territory, or an Indian tribe, or a person or entity acting under a grant of authority from or contract with such public agency, including the employees or agents of such public agency or its contractors or persons or entities to whom it has granted authority, that is authorized by law to oversee the health care system (whether public or private) or government programs in which health information is necessary to determine eligibility or compliance, or to enforce civil rights laws for which health information is relevant."

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

To summarize, in conjunction with the authority granted under Neb. Rev. Stat. § 84-305, HIPAA provides specific exceptions under which the Auditor of Public Accounts (APA) may access protected health information, such as those referencing conflicting State law and pertaining to health oversight agencies.

Condition: The University of Nebraska (University) has not provided the APA with the detailed health insurance and prescription claims data from the insurance administrators, despite the APA's willingness to receive the claims data with the names redacted. These data files are needed to determine claims paid on behalf of the University are for eligible participants and services.

Questioned Costs: Unknown

Context: The University maintains a self-funded health and dental insurance program. For fiscal year 2010, the University received \$98,924,366 in contributions for both the employer and employee portions of health and dental insurance premiums. The University paid \$83,442,271 for the employer share of health and dental insurance premiums during fiscal year 2010. Of this total, \$6,427,638 was paid with Federal funds.

Self-funded insurance programs generally require the services of a third party to assist in administering the program. The University entered into an administrative services agreement with Blue Cross Blue Shield of Nebraska (BCBSNE) for medical and dental services. Some of the services provided by BCBSNE include, among others: preparing the Benefit Plan Document; preparing enrollment cards and Schedule of Benefits for disbursement to employees; and processing of claims. During fiscal year 2010, the University paid BCBSNE \$3,972,824 to administer the University's health and dental insurance program.

BCBSNE is considered a service organization and is required to receive a SAS 70 audit to assess its internal controls. BCBSNE received a SAS 70 audit from Eide Bailly LLP for the period August 1, 2009, through July 31, 2010. The SAS 70 report included an opinion on the design of controls at BCBSNE to provide reasonable assurance that specified control objectives would be achieved if the controls were complied with; however, it did not include substantive or compliance testing of eligibility and allowability of claims payments. Additionally, the APA was unable to obtain documentation to support that the SAS 70 audit tested controls relating specifically to the University's health and dental insurance program.

On behalf of the University, the Employers Health Purchasing Corporation of Ohio (EHPCO) entered into a prescription benefit services agreement with CaremarkPCS Health, L.P. (Caremark). Some of the services performed by Caremark include, among others, providing: a national network of participating retail and mail service pharmacies; generic substitutions; drug utilization reviews. The University is a member of EHPCO.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Despite utilizing BCBSNE and Caremark to process its health, dental, and prescription claims, the University is responsible for the payment of all such claims incurred by University employees or their dependents. During fiscal year 2010, \$82,882,211 of health and dental insurance claims were paid by the University. In addition, the University also paid \$22,372,554, during fiscal year 2010, to Caremark for the administration and payment of prescription insurance claims. However, since the detailed data was not provided, the APA could not specifically identify the amount spent for administration costs versus payments of prescription claims.

In April 2010, the APA obtained permission from the Legislative Performance Audit Committee to conduct a performance audit relating to the cost of health insurance for State employees, including the University. Audit fieldwork began shortly thereafter. As part of our testing, the APA requested the University's medical and prescription claims detail from BCBSNE and Caremark on June 23, 2010, and July 12, 2010, respectively. On July 7, 2010, the APA was notified by BCBSNE that this information was ready for delivery to the APA. However as of January 20, 2011, the APA has not been provided the detailed medical and prescription claims data, despite the APA's willingness to receive the data with the names redacted.

Cause: The University has not provided the APA with the documentation requested.

Effect: Without the detailed claims data, the APA cannot determine if the claims paid on behalf of the University were proper and for eligible participants and services in accordance with allowable cost principles.

Recommendation: We recommend the University provide the requested health insurance claims data to the APA in accordance with Federal requirements and State statutes.

Management Response: The University respectfully suggests that much of the basis of this finding is not accurate and as such, respectfully disagrees with the finding. The premise/inference that Federal grants and contracts are charged differing costs versus those charges to University activities is not true. All activities are charged a premium – claims and claims activity are used by the health plan in determining premiums, but claims are not the basis for charges to either grants or University cost centers.

The processing of claims data on behalf of the University's health plan is supported by a SAS 70 report that has been furnished to the Auditor. Plan management is comfortable with the scope of that report and believes the testing done reduces risk to an acceptable level.

The University has been advised by counsel that furnishing the claims data as requested by the Auditor could expose the University's plan to HIPAA violations.

Corrective Action Plan: The University will continue to seek a solution that is responsive to the varied needs and obligations of the Legislative Performance Audit Committee, our faculty and staff, and the Auditor, while recognizing our responsibilities under Federal law to guard protected health information.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2010

Contact: Keith Lauber, Director of University Accounting

Anticipated Completion Date: Unknown.

APA Response: The APA feels the HIPAA requirements cited above allow our office complete and unfettered access to the information requested. The APA has contacted Federal authorities regarding this matter and they are in agreement that the University should provide this information as it would not violate any provisions of HIPAA. The University and their counsel have not provided the APA with documentation on how providing the requested information this office is entitled to could expose them to HIPAA violations.

In the spirit of cooperation and acknowledgement of the privacy concerns noted by the University, we have consented to receive this information with redacted names and to also sign a non-disclosure agreement, but the University continues to withhold the requested information.
