Misti Fiddelke, Board President
Ravenna Public Schools
424 W. Piedmont Street
Ravenna, Nebraska 68869

Dear Ms. Fiddelke:

As you know, in August 2013, the Nebraska Auditor of Public Accounts (APA) issued a letter to you regarding certain expenditures of the Ravenna Public School District (District). That letter expressed our concerns with the District's credit card procedures, signatures on District checks, Ravenna School Board's (Board) approval of all expenditures, certain improper expenditures, purchases requiring quotes or bids, and the Board's petty cash fund.

That letter informed you that this office would perform follow-up procedures to ensure the Board took appropriate corrective actions. In June 2016, the APA contacted your Superintendent, Kenneth Schroeder, to request certain information for our follow-up procedures and to determine whether a full audit or attestation was necessary.

Based upon the outcome of our preliminary work, the APA has determined that a separate financial audit or attestation of the District by the APA is unnecessary at this time. However, your continued lack of corrective action could result in the APA electing to conduct the financial audit of the District, at your cost, in future years.

Our preliminary work did reveal certain internal control or compliance matters, or other operational concerns, that are presented below. The following presentation of those matters, along with the related recommendations, will provide the District with an opportunity to improve overall financial operations.

Our consideration of internal control was for the limited purpose described above, and it was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Therefore, material weaknesses or significant deficiencies may exist that were not identified.

1. "General Flow-Thru" Account

The District pays certain expenditures prior to Board approval, which is not in compliance with its own Board policies.

As explained in our August 2013 letter, the Board meets once per month and approves the District's expenditures at that time. Generally, payments of the expenses are made following such monthly meetings.

However, the District also utilizes what it calls a “General Flow-Thru Account,” which provides an alternative method for making payments. According to the Superintendent, this account is used for payments related to day-to-day operations that must be made prior to the monthly Board meeting. Accordingly, the “General Flow-Thru Account” payments are requested and authorized by the Superintendent but are not approved by the Board prior to payment.

Each month the Board is provided with a list of payments from this account. The list is included with the general fund invoices that are scanned and available online for the Board’s review prior to each meeting. However, instead of also providing the Board members with online access to the supporting documentation for each of the “General Flow-Thru Account,” transactions, the District simply makes this documentation “available” to the Board at its monthly meetings.

The APA reviewed the “General Flow-Thru Account” transactions for the period January 2016 through June 2016. The District processed the following activity through this account:

Month	Amount
January 2016	\$ 1,895.66
February 2016	\$ 2,928.72
March 2016	\$ 1,896.78
April 2016	\$ 4,696.03
May 2016	\$ 2,111.60
June 2016	\$ 957.81
Totals	\$ 14,486.60

A complete list of transactions paid from the “General Flow-Thru Account” is included in **Attachment A**. From a review of these expenditures, most should have been paid either through the normal claims process or by using a credit card or from a petty cash fund.

Board Policy 706.06 requires the District to do the following when paying for goods and services:

The board will give final approval to all payments of bills. Payment of bills shall be submitted by the superintendent for the board’s approval only after verification of delivery and satisfaction by the department or staff receiving the item(s). No payment for goods or services shall be made unless both an itemized invoice showing the name of the person or firm to whom payment is due is presented, and a receiving document bearing the signature of an authorized school employee is on file. Furthermore, the invoice must have been issued in response to an approved purchase order. The superintendent shall audit all claims, and shall submit the same to the Board of Education for approval and authorization for payment.

School district moneys shall be disbursed only upon final board approval of the monthly list of bills. Each district check shall show the legal identification of the district by name and address, and the depository or investment account upon which the check is drawn. It shall also specify the amount to be paid and to whom payment is made, from what funds, for what purpose, the date of payment and the number of the check.

(Emphasis added.) As stated plainly above, District funds are to be expended “only upon final board approval.” Nevertheless, payments from the “General Flow-Thru Account” are issued prior to Board approval.

The APA also identified the following concerns related to the “General Flow-Thru Account” transactions:

Unallowable or Unreasonable Purchases

The following transactions are considered unallowable or unreasonable:

Check Number	Payee	Amount	APA Notes
5440	Ravenna Chamber of Commerce	\$560.00	Observed invoice for \$560 for “Teacher Appreciation Chamber Bucks” (112 x \$5) dated 4/26/16.
5448	Cindy Grimes	\$35.74	Observed receipts from Subway for \$7.25 for lunch on 3/21/16, from Runza for \$7.49 for lunch on 4/20/16. The remaining amount is a fuel purchase. Cindy is a bus driver for the district. Meals appeared to be for one-day travel.
5463	Ravenna Chamber of Commerce	\$10.00	Observed invoice for \$10 for “Teacher Appreciation Chamber Bucks” (2 x \$5) dated 5/4/16. Approval of Chamber Bucks was in Board minutes.
5472	Christie’s Kitchen	\$45.00	Observed receipt from Christie’s Kitchen for a retirement cake for \$45.
5474	Ravenna Locker	\$65.19	Ravenna Locker is a meat locker that the District uses to supply hamburgers and hot dogs for the end of year picnic for staff and their spouses.
5475	Lisa Jones	\$55.76	Observed receipt for 10 dozen cookies from Eileen’s Cookies Kearney for \$45 and a receipt from HyVee for fruit punch for \$10.76.
5477	Caley Greer	\$74.50	Observed receipt from Eileen’s Cookies Kearney for 17 dozen cookies and 3 trays for \$74.50. Receipt was dated 5/23/16. Also observed purchase order for 17 dozen cookies and 3 trays dated 5/23/16.
5481	Stephen Luth	\$58.18	Expense reimbursement for school bus permit and meals. Observed a copy of Mr. Luth’s permit with the fee of \$7.50 listed on the permit. Expense also included five meals for bus driver. There were two non-itemized receipts for \$7.37 from Arby’s and \$18.77 from Pizza Palace, a total of \$26.14. There was also one meal for \$4.50 that lacked a receipt. Meals appeared to take place during one-day travel.
5488	Gary Psota	\$119.38	Expense reimbursement for school bus permit and meals. Observed a copy of Mr. Psota’s permit with the fee of \$7.50 listed on the permit. Two meal receipts for \$31.74 were not itemized. Additionally, there were seven meals with no receipts, totaling \$25. All of the meal receipts, or \$111.88, appeared to be for one-day travel.
Total		\$1,023.75	

The \$570 purchases of “Teacher Appreciation Chamber Bucks” gives rise to concerns regarding possible unconstitutional gratuities under Article III, Section 19, of the Nebraska Constitution. That provision states, in relevant part, the following:

The Legislature shall never grant any extra compensation to any public officer, agent, or servant after the services have been rendered nor to any contractor after the contract has been entered into, except that retirement benefits of retired public officers and employees may be adjusted to reflect changes in the cost of living and wage levels that have occurred subsequent to the date of retirement.

According to the Nebraska Supreme Court (Court), the above constitutional prohibition applies to the State and all of its political subdivisions. *Retired City Civilian Employees Club of City of Omaha v. City of Omaha Employees’ Retirement System et al.*, 199 Neb. 507, 512, 260 N.W.2d 472, 475 (1977)

The Court, in *Myers v. Nebraska Equal Opportunity Com’n*, 255 Neb. 156, 163, 582 N.W.2d 362, 367 (1998) (quoting *Matter of Mullane v. McKenzie*, 269 N.Y. 369, 377, 199 N.E. 624, 627 (1936)), has explained the meaning of extra compensation as follows:

A payment of compensation to a public servant constitutes extra compensation whenever there is no legal obligation to pay such compensation.

The Nebraska Attorney General, in Op. Att’y Gen. No. 94064 (August 10, 1994), has elaborated upon the prohibition in Article III, Section 19, as follows:

The purpose of state constitutional provisions prohibiting extra compensation to public employees after services are rendered is to prevent payments in the nature of gratuities for past services.

With regard particularly to monetary awards for past services, in Op. Att’y Gen. No. 95063 (August 9, 1995), the Nebraska Attorney General made the following observation:

[I]t becomes apparent that a payment to a state employee upon his or her termination for which the state receives nothing would constitute a gratuity forbidden by Art. III, § 19. For example, if a state employee voluntarily retires after 50 years of service and receives a payment of \$25,000 solely for his long and faithful service, such a payment could be characterized as a gratuity and would clearly be improper.

Furthermore, the Local Government Miscellaneous Expenditure Act (Act), which is set out at Neb. Rev. Stat. §§ 13-2201 through 13-2204 (Reissue 2012), establishes strict parameters for the expenditure of public funds by designated public entities, including school districts and their respective boards. Section 13-2203(3) of the Act specifies the types of gifts that may be purchased with public funds. That statute permits the following:

The expenditure of public funds for plaques, certificates of achievement, or items of value awarded to elected or appointed officials, employees, or volunteers, including persons serving on local government boards or commissions. Before making any such expenditure, the governing body shall, by official action after a public hearing, establish a uniform policy which sets a dollar limit on the value of any plaque, certificate of achievement, or item of value to be awarded. Such policy, following its initial adoption, shall not be amended or altered more than once in any twelve-month period.

As a result of this statute, the Board implemented Board Policy 402.09, which states, in part, the following:

The board recognizes and appreciates the service of its employees. Employees who retire or resign may be honored by the board, administration and staff in an appropriate manner.

If the form of honor thought appropriate by the administration and employees involves unusual expense to the school district, the superintendent shall seek prior approval from the board. Any expenditure for recognition of service shall be limited to fifty dollars per individual per occasion.

The Board policy does not allow for other employee appreciation gifts.

Finally, per Neb. Rev. Stat. § 79-526(2) (Reissue 2014), the school board of a Class I, II, III, IV, or VI school district may expend funds for, among other things, meals that are “appropriate for the benefit, government, and health of pupils enrolled in the school district.”

Similarly, § 13-2203(1)(a) of the Act allows “the payment or reimbursement of actual and necessary expenses incurred by elected and appointed officials, employees, or volunteers” while participating in certain events and activities. Per § 13-2203(1)(a)(iii), such authorized expenses may include “[m]eals and lodging at a rate not to exceed the applicable federal rate”

Whether the meal expenses described in the above table meet the requirements of either § 79-526 or § 13-2203(1)(a) is a matter left largely to the discretion of the Board. Nevertheless, some taxpayers could consider feeding employees while performing their paid duties to be unreasonable.

Approval of Superintendent Expenses

Because the payments from the “General Flow-Thru Account” are made prior to Board approval, and the documentation to support the expenses are not presented to the Board members before the meetings, the Superintendent is ultimately approving his own expenses. The following transactions were noted:

Check Number	Payee	Amount	APA Notes
5390	Kenneth Schroeder	\$100.00	A provision of the Superintendent’s contract states, “The Superintendent shall be required to purchase and maintain a cellular phone so that he can be reached at all times for work-related emergencies or while away from school grounds during the work day. The School District will reimburse the Superintendent up to a maximum of \$100 per month for the actual cost of a cellular phone service plan.” The cell phone invoice was not included.
5404	Kenneth Schroeder	\$100.00	A provision of the Superintendent’s contract states, “The Superintendent shall be required to purchase and maintain a cellular phone so that he can be reached at all times for work-related emergencies or while away from school grounds during the work day. The School District will reimburse the Superintendent up to a maximum of \$100 per month for the actual cost of a cellular phone service plan.” The cell phone invoice was not included.
5411	Kenneth Schroeder	\$166.32	Mileage for four trips to Kearney, NE, for various meetings and one trip to Grand Island, NE, for a meeting. The APA examined all five Request for Travel and Related Expense Authorizations for travel. Mileage was reimbursed at \$.54 per mile for 60 miles, or \$32.40 for each Kearney trip and 68 miles at \$.54 each, or \$36.72 for the Grand Island trip.
5416	Kenneth Schroeder	\$50.98	The APA observed a receipt for \$50.98 for two easel pads from Office Depot/Office Max.
5420	Kenneth Schroeder	\$100.00	A provision of the Superintendent’s contract states, “The Superintendent shall be required to purchase and maintain a cellular phone so that he can be reached at all times for work-related emergencies or while away from school grounds during the work day. The School District will reimburse the Superintendent up to a maximum of \$100 per month for the actual cost of a cellular phone service plan.” The cell phone invoice was not included.
5433	Kenneth Schroeder	\$100.00	A provision of the Superintendent’s contract states, “The Superintendent shall be required to purchase and maintain a cellular phone so that he can be reached at all times for work-related emergencies or while away from school grounds during the work day. The School District will reimburse the Superintendent up to a maximum of \$100 per month for the actual cost of a cellular phone service plan.” The cell phone invoice was not included.
5438	Kenneth Schroeder	\$97.20	Mileage was paid for three trips to Kearney, NE, on 3/16/16, 3/17/16, and 3/30/16. All three trips were reimbursed at \$32.40 per trip, or 60 miles a trip at \$0.54. Additionally, support for the trips was not available to the Board at the time of approval, but only after requested by the APA.
5455	Kenneth Schroeder	\$35.64	Mileage was paid for travel to Grand Island, NE, for the LOUPLATTE Conference Superintendent Meeting on 4/20/16. Based on the amount requested, 66 miles were claimed at the rate of \$0.54. Documentation of the meeting was provided.
5462	Kenneth Schroeder	\$100.00	A provision of the Superintendent’s contract states, “The Superintendent shall be required to purchase and maintain a cellular phone so that he can be reached at all times for work-related emergencies or while away from school grounds during the work day. The School District will reimburse the Superintendent up to a maximum of \$100 per month for the actual cost of a cellular phone service plan.” The cell phone invoice was not included.
5483	Kenneth Schroeder	\$100.00	A provision of the Superintendent’s contract states, “The Superintendent shall be required to purchase and maintain a cellular phone so that he can be reached at all times for work-related emergencies or while away from school grounds during the work day. The School District will reimburse the Superintendent up to a maximum of \$100 per month for the actual cost of a cellular phone service plan.” The cell phone invoice was not included.
Totals		\$950.14	

Good internal control requires procedures to ensure that the expenses of the Superintendent are reviewed by a Board member prior to approval and are adequately documented to support the expense. Without such procedures, there is an increased risk for the loss or misuse of District funds.

The APA also found the following issues with the “General Flow-Thru Account.” The specific details are included in **Attachment A**.

# of Exceptions	Amount	Finding
6 of 106	\$918.13	Lack of adequate documentation.
7 of 106	\$560.68	Documentation not provided to Board upon approval.
3 of 106	\$339.47	Lack of approved purchase order.

Without procedures to ensure that all transactions are approved prior to payment, there is an increased risk for the loss or misuse of District funds.

We recommend the District discontinue use of the “General Flow-Thru Account.” Transactions should be paid either through the normal claims process or by using a credit card or from a petty cash fund. For all expenditures, we recommend the Board implement the following procedures:

- Ensure supporting documentation for all transactions is provided or available to Board members before meetings to allow for an adequate review of those records to be performed.
- Ensure all expenditures of District fund are reasonable and allowable.
- Ensure appropriate documentation is on file and maintained for the Board’s review prior to payment.
- Ensure all transactions for goods and services include an approved purchase order.

District Response: The school district has discontinued its use of the “General Flow-Thru Account.” Transactions will be paid through the normal claims process.

The school district will review its policies, practices, and procedures with legal counsel and appropriate governmental entities to ensure that all food purchases and all forms of employee appreciation, and documentation of those purchases, comply with state law.

The school district will have superintendent expenses approved by the board.

2. Credit Card Transactions

The District had five credit cards available for use by its employees. From December 2015 through May 2016, the District made the following purchases and payments on those cards.

Statement Month	Beginning Balance	Purchases and Credits	Payments	Ending Balance
December 2015	\$4,805.82	\$4,552.03	\$4,805.82	\$4,552.03
January 2016	\$4,552.03	\$1,472.90	\$4,552.03	\$1,472.90
February 2016	\$1,472.90	\$5,002.93	\$1,472.90	\$5,002.93
March 2016	\$5,002.93	\$7,320.99	\$5,002.93	\$7,320.99
April 2016	\$7,320.99	\$9,321.42	\$6,608.57	\$10,033.84
May 2016	\$10,033.84	\$1,724.10	\$10,033.84	\$1,724.10
Total		\$29,394.37	\$32,476.09	

According to the Superintendent, the District's credit card statements are reviewed on a monthly basis by both the Superintendent and the bookkeeper, who work together to compare the approved purchase orders and credit card statements to ensure that no unauthorized charges were incurred. The bookkeeper is responsible for ensuring that a detailed receipt for each transaction is obtained.

Each month, the Board is provided with a copy of the credit card statements and a list of bills to be approved. These statements and all of the supporting documentation are scanned and presented as attachments to Board members through an EMeetings software.

Despite these internal control procedures, the APA has identified the following concerns in the sample of 199 credit card transactions examined for the time period covered:

Transactions	Amount	Concern
11	\$1,868.06	Lack of adequate documentation to support the expense.
25	\$5,388.28	Inadequate documentation provided to the Board.
27	\$8,723.10	No purchase order or unsigned order.
2	\$340.22	Sales taxes paid.
2	\$145.91	Unreasonable meals.

The 199 credit card transactions are included on **Attachment B**.

The issues identified above for the credit card purchases constitute an apparent violation of both State statute and Board policy. Specifically, Neb. Rev. Stat. § 13-610(4) (Reissue 2012), which governs purchasing card programs implemented by political subdivisions, provides, in relevant part, the following:

An itemized receipt for purposes of tracking expenditures shall accompany all purchasing card purchases. In the event that a receipt does not accompany such a purchase, purchasing card privileges shall be temporarily or permanently suspended in accordance with rules and regulations adopted and promulgated by the political subdivision.

Board Policy 402.11, effective November 2007, contains the following information regarding the use of District credit cards:

Employees may use school district credit cards for the actual and necessary expenses incurred in the performance of work-related duties. Actual and necessary expenses incurred in the performance of work-related duties include, but are not limited to, fuel for school district transportation vehicles used for transporting students to and from school and for school-sponsored events, payment of claims related to professional development of the board and employees, and other expenses required by employees and the board in the performance of their duties.

Employees and officers using a school district credit card must submit a detailed receipt in addition to a credit card receipt indicating the date, purpose and nature of the expense for each claim item. Failure to provide a proper receipt shall make the employee responsible for expenses incurred. Those expenses shall be reimbursed to the school district no later than ten working days following use of the school district's credit card. In exceptional circumstances, the superintendent or board may allow a claim without a proper receipt. Written documentation explaining the exceptional circumstances shall be maintained as part of the school district's record of the claim.

The school district may maintain a school district credit card for actual and necessary expenses incurred by employees and officers in the performance of their duties. The superintendent may maintain a school district credit card for actual and necessary expenses incurred in the performance of the superintendent's duties. The transportation coordinator may maintain a school district credit card for fueling school district transportation vehicles in accordance with board policy.

It shall be the responsibility of the superintendent to determine whether the school district credit card use is for appropriate school business. It shall be the responsibility of the board to determine through the audit and approval process of the board whether the school district credit card use by the superintendent and the board is for appropriate school business.

The superintendent shall be responsible for developing administrative regulations regarding actual and necessary expenses and use of a school district credit card. The administrative regulations shall include the appropriate forms to be filed for obtaining a credit card.

Section 13-610(4) states clearly that, whenever an itemized “receipt does not accompany” a purchase made with a political subdivision’s credit card, “purchasing card privileges shall be temporarily or permanently suspended in accordance with rules and regulations adopted and promulgated by the political subdivision.” However, Board Policy 402.11 says nothing about any such mandatory suspension – rather, it authorizes the superintendent or board to allow a claim without a proper receipt in “exceptional circumstances.”

Section 13-610(4) makes no allowance for any circumstances, exceptional or otherwise, in which an itemized receipt does not accompany a purchase. If the required receipt is missing – no matter the reason – some form of suspension of credit card privileges must follow.

Board Policy 706.06 requires the use of approved purchase orders for the purchase of goods and services, as follows:

The board will give final approval to all payments of bills. Payment of bills shall be submitted by the superintendent for the board's approval only after verification of delivery and satisfaction by the department or staff receiving the item(s). No payment for goods or services shall be made unless both an itemized invoice showing the name of the person or firm to whom payment is due is presented, and a receiving document bearing the signature of an authorized school employee is on file. Furthermore, the invoice must have been issued in response to an approved purchase order. The superintendent shall audit all claims, and shall submit the same to the Board of Education for approval and authorization for payment.

(Emphasis added.) Finally, good internal controls also require procedures to ensure that credit card transactions are supported by adequate documentation, are adequately reviewed by the Board, and are reasonable expenses of the District. Without such procedures, there is an increased risk for the loss or misuse of District funds.

We recommend the District ensure its Board policy complies with the provisions set forth in § 13-610(4). We also recommend the District consider the findings addressed herein and work to strengthen its credit card review procedures to ensure the following:

- Adequate documentation is maintained for all credit card purchases.
- Documentation provided to the Board to support the expenses contains adequate detail regarding the nature and purpose of such expenses.
- District procedures that require approved purchase orders are met.
- Sales taxes within the State are not paid.
- Meals are reasonable uses of District funds.

District Response: The school district will review its policies, practices, and procedures to ensure that all school district purchases are supported by adequate documentation.

The school district will submit quarterly sales tax refund claims to the state for vendors who have inappropriately assessed sales tax on the school district's purchases.

3. Check Signatures

Neither the Board President nor the Secretary signed all checks drawn on District funds, as required by State statute and District policy, respectively. Instead, the District Superintendent and bookkeeper were allowed to sign a significant number of checks for payment.

In reviewing the District's bank accounts for the period January 2016 through June 2016, the APA determined that checks for the following accounts were not signed by the Board President:

Description	Expenditures	Signature on Checks
High School Activities	\$135,461.37	Superintendent (stamp) and Bookkeeper
Bluejay Elementary	\$1,141.70	Elementary Secretary
General Flow-Thru Fund	\$14,279.19	Superintendent (stamp) and Bookkeeper
PIK Account	\$7,025.74	Sheila Lockhorn or Chandra Fisher
Jr-Sr High School Fund	\$640.33	Secondary Principal
Special Building Fund	\$9,509.59	Board President and Bookkeeper
Qualified Capital Fund	\$55,430.05	Board President and Bookkeeper
Total	\$23,487.97	

According to the Superintendent, the District does not have access to the PIK Account, which is in the name of the District. This account is maintained by Junior Class parents to provide funding for post-prom activities. Money is raised through fundraising or from the receipt of donations. Regardless, all accounts using the District's name or FTIN should be controlled by persons authorized by the District.

The Board President is required to sign all District checks according to Neb. Rev. Stat. § 79-569 (Reissue 2014), which states, in relevant part, the following:

The president of the school board of a Class I, II, III, IV, or VI school district shall . . . (2) countersign all orders upon the treasury for money to be disbursed by the district . . .

In addition, the District's policies require the Board President and the Board Secretary to sign checks approved by the Board. Board Policy 203.02 states the following:

The board president, as the chief officer of the school district, shall sign employment contracts and sign other contracts and school district warrants approved by the board and appear on behalf of the school corporation in causes of action involving the school district.

Board Policy 203.04 adds, "It shall be the responsibility of the board secretary and recording secretary . . . to sign warrants drawn on the school funds after board approval[.]"

This finding was included in the APA's previous letter to the District in 2013. At that time, the District contended that language contained in Neb. Rev. Stat. § 79-575 (Reissue 2014) allowed the Board to delegate the check-signing responsibilities to other employees of the District. The APA disagreed, maintaining that the statutory language cited has no bearing upon the obligation of the Board President, under § 79-569 and § 79-575 alike, to countersign all warrants, checks, and other specified instruments. Likewise, the APA pointed out, the District's interpretation of the language in § 79-575 does not nullify Board Policy 203.02, which also requires the Board President to sign District checks.

Additionally, the APA identified instances in which "General Flow-Thru Account" checks were signed only by the bookkeeper, as follows:

When District checks are not signed by the Board President and the Secretary, the District is not in compliance with either State statute or its own Board policies.

We recommend the Board take action to ensure that all District checks are signed in accordance with both State statute and the Board's own policies.

District Response: The school district will review its policies, practices, and procedures to ensure that all school district disbursements comply with state law.
